Mr. Grundy's Surprise
The Rockefellers Stopped
The World Will Last
Give Me Gas, Says China

BY ARTHUR BRISBANE

MR. GRUNDY, able industrialist, capitalist and powerful lobbyist for protection, will not return to the senate to which he was appointed. Mr. Davis, labor secretary, and a labor optimist, beat Grundy overwhelmingly at the primaries yesterday.

Opposition to the tariff is supposed to have cut Mr. Grundy's vote. There was probably some other, bigger power back of Mr. Davis.

* * *

MR. McBRIDE says the prohibition cause only got $1,000 altogether from Henry Ford, and Mr. Rockefeller hasn't given any money to the Anti-Saloon League since 1926.

It was in or about 1926 that many who had favored prohibition and hoped for the best possible results changed their minds.

There is no indication, however, that the Rockefeller family has changed its mind on prohibition. But it has stopped contributing money.

Perhaps it has changed its mind about the Anti-Saloon League.

HERE is comfort. Worry no more about the world coming to an end. A Canadian scientist says the sun is about 10 billion years old and will last at least 10 billion years longer. Ten thousand million years is a long time.

While the sun lasts the earth will last. The human race may be partially or completely wiped out at intervals, compelled to begin all over again, working its way up from microscopic creatures floating in salt water.

* * *

"Where we stand now there was once ice about 4,000 feet thick. The ice will come again, go again. Ultimately it will remain." So says Dr. A. R. Reeve. He does not believe that this world is just a machine or that spiritual things are of unimportance, for which much thanks. Even the earth would have no existence if there were not spirits locked up in our brains to see it, and make it real by understanding it.

WE have, by the way, a new ancestor. Nothing less than a fish found, with a hinged neck, that lived about 200,000,000 years ago. He was found near the city of Buffalo, N. Y., where he used to swim when the northern part of the United States was covered with water.

That fish with the hinge in its neck was a necessary part of our evolution, if you believe science.

Now we have hinges all the way down our necks, and all the way down our spines to the last joint, the os coccyx, all we have left of a tail we once carried around.

CHINA apparently means to be up to date in war. The French authorities in Indo-China have seized a shipment of poison gas for the Nanking government.

France suggests that Germany supplied the poison gas. The German foreign office denies it.

LONDON, which often knows more about our affairs than we know, says money will be even cheaper than it was. The bank rate may be reduced to 2½ per cent.

Paris reports money "unlendable." If only that had been the case last October, when the sky was the limit and everything going up! Then people wanted money and had to pay 16 and 20 per cent to borrow it. Now they don't want it and can get it for almost nothing.

BOMBAY reports 200 more injured in another of many Hindu salt riots.

Mrs. Naidu, poetess, replacing Gandhi, now in jail, as leader of the Hindus, has been arrested, with Gandhi's son.

Gandhi promises to provoke arrests until all the jails and other buildings are full, and wonders what Britain will do then. It is a difficult question.

If you put a million Hindus in jail, there would be 219,000,000 left to carry on Gandhi's "civil disobedience" campaign.

Gandhi tells an interviewer that India demands "full freedom." Propagandists for the Indian revolution in America say that before Britain took control of India it was a great and free nation. History provides little information to that effect.

WOULD the administration and Congress tell the nation what, if anything, they propose to do about Muscle Shoals?

That power goes to waste worth millions a year.

That power could produce fertilizer that farmers need.

If an individual or corporation possessed and failed to use such vast potentialities of wealth, insanity experts would be called.

* * *

In 1929 this country imported 1,[illegible] tons of nitrate of soda, containing 150,000 tons of fixed nitrogen. Nitrate plant No. 2 at Muscle Shoals could produce 5,000 tons of fixed nitrogen a year. Muscle Shoals cost the United States more than $130,-[illegible].

It would employ thousands of AMERICAN workmen, now idle, increase domestic purchasing power, [illegible] the American farmer $12.65 a ton that he now pays to the Chilean government as export duty on nitrates. The work now done by Chile and the Germans would be done in the United States by Americans.

The Florence (Alabama) Chamber of Commerce most reasonably asks a Republican administration to look this over.

4,000 GUESTS OF HUBER CO. HERE TODAY

New Attendance Figure Set at Local Concern's Annual Party.

PICNIC LUNCH AT NOON

Exhibit of Company's New Threshing Machinery Is Feature of Affair.

With an attendance far exceeding expectations, the Huber Manufacturing Co. today was host to approximately 4,000 of its customers from all over Ohio and bordering states at its annual threshermen's program.

Starting with a picnic lunch at noon, provided by the Huber Co., the program continued with an address of welcome in the Huber auditorium by A. W. Newby, president of the company. James Clark, publisher of the American Thresherman, and George Durbin, secretary of the state threshermen's brotherhood, were other speakers.

Program Given

Entertainment in the form of singing and dancing by a Bucyrus trio, together with an act by Art Craven local ventriloquist, preceded the final event of the day's program, which was the awarding of 16 prizes to winners of a guessing contest. The prizes were donated by local concerns.

Exhibits of the company's new threshing machinery and tractors were scattered over the entire plant and were the object of the visitors' attention throughout the day.

Plant Open to Visitors

The company's entire plant was thrown open to its guests and employes supplied information as well as acted as guides.

Although the company has held a similar program for numerous years, this year's event was by far the greatest in point of attendance, company officials said.

LINKS GUN VICTIM, M'GRAW IN ROBBERY

Man Identifies Two as Pals in Safe Blowing at Sandusky Store.

William B. Harris, 29, of Fostoria, fatally wounded Sunday by a Marion policeman who caught him burglarizing an uptown jewelry store window, and William McGraw, confessed robber of the Osgood filling station, have been identified by Albert E. Marchus, of Sandusky, as two of the three men who bound him and a fellow employe in the course of a safe robbery of the Herb & Meyers Co. department store there a week ago, Marchus claims.

Marchus, accompanied by Police Chief C. A. Weingates and Capt. Lee Schiffer, of Sandusky, was in Marion this week in an attempt to identify the men. A third member of the trio that figured in the department store robbery, and who assisted McGraw in the Osgood robbery, is being sought.

GOLD STAR MOTHERS HONORED IN FRANCE

General Pershing and Ambassador Claudel of France Voice Sympathies.

By The Associated Press

PARIS, May 22 — Ambassador Claudel, of France, and General John J. Pershing, for the United States, today voiced the sympathies of their nations to the more than 200 gold star mothers who are visiting military cemeteries where their boys are buried.

The ambassador and the soldier who commanded the American expeditionary forces in France joined their tributes at public ceremonies which today provided a tender climax to the pilgrimage of the mothers from the United States.

The consecration, which was spontaneous, occurred at a luncheon given by the American club in Paris to Ambassador Claudel, who had been invited to speak on the French influence in the United States.

After welcoming M. Claudel as a "great ambassador," General Pershing turned immediately to the pilgrimage of the American war mothers and wives. It was the only proper thing, he said, for the American government to arrange for the visit of these mothers to the graves of their sons. Speaking in solemn tones, General Pershing asked all present to *stop* and think of the meaning of this visit.

"These American mothers," General Pershing said, "are bringing to France again the spirit conveyed during the war by their heroic sons. They are reviving the splendid spirit of cooperation, devotion and patriotism. I hope all will give a thought to the significance of this splendid pilgrimage.

"These war mothers represent a cross section of motherhood of America, what greater tribute can be paid to all the motherhood of America than to voice our respect and admiration to the women who are here on this sacred pilgrimage."

New Motor Gas Is Said To End Weather Worry

By The Associated Press

TULSA, Okla., May 22—Discovery of a more powerful gasoline, a blend especially for automobiles, was announced to the Natural Gasoline association's annual convention today.

The mixture "fashioned goodness" to gasoline by which is meant quick, easy starting in cold weather. It is described also as adding power which the "old time" gas never had, and as increasing the available gasoline supply.

The blending formula is a gift to the petroleum industry, in the form of bulletin 14 from the Department of Engineering Research of the University of Michigan.

PINCHOT WIN SEEMS SURE

Latest Returns Give Him Lead of 12,279 in Pennsylvania Primary Race.

CLAIMS VICTORY BY 30,000

Brown Campaign Manager Holds Hope to Last and Refuses To Admit Defeat.

By The Associated Press

PHILADELPHIA, May 22 — A plurality of 12,279 for Gifford Pinchot over Francis Shunk Brown for the Republican nomination for governor was shown in unofficial returns for all but 63 districts in the state in Tuesday's primary.

The tabulation for 8,638 districts in the 8,701 in the state showed for Pinchot 627,798; for Brown 615,519 and Thomas W. Phillips, wet candidate, 263,650.

Additional returns in the senatorial fight served only to increase the big plurality given Secretary of Labor James J. Davis over Senator Joseph R. Grundy.

Brown Left Alone

With the exception of Brown, all other candidates on the organization's state for statewide offices, including Secretary of Labor James J. Davis, who defeated United States Senator Joseph R. Grundy for the senatorial nomination, were victorious.

Davis scored an overwhelming victory over Grundy, who was backed by Governor Fisher and other state leaders, the secretary's plurality standing at 238,860 with 411 districts to be heard from.

The anti-prohibition ticket headed by Francis H. Bohlen, for senator, and Thomas W. Phillips, Jr., for governor, polled more than a quarter of a million votes.

For senator, 8,290 districts gave Davis 713,139; Grundy, 470,279, and Bohlen, 233,877.

The incomplete returns indicate that Pinchot carried 60 of the 67 counties, upstate counties giving him sufficient support to overcome the 187,730 plurality received by Brown in Philadelphia.

P. S. Stahlenecker, manager of the Pinchot campaign, said the missing districts would materially increase Pinchot's plurality. He predicted a victory by about 30,000. Bernard J. Myers, chairman of the Davis-Brown state campaign committee, refused to concede the victory to Pinchot.

MAY FIX CAUSE OF OHIO PRISON FIRE

State Fire Marshal Declares Disastrous Blaze Started by Convict Group.

COLUMBUS, O., May 22—International News Service today learned exclusively that State Fire Marshal Raymond Gill has quietly made a second investigation into the tragic Ohio State Penitentiary fire and that his report may fix responsibility of the conflagration on a group of convicts.

"There is no doubt," Gill declared, "that the blaze was of incendiary origin and our department hopes to apprehend the convicts who set the prison afire."

The state fire chief, it was learned, has been at the Ohio State reformatory at Mansfield and the London prison farm to question convicts who were in G and H cellblock, where 320 prisoners perished, when the fire started.

Gill's inquiries have also led into the records of wholesale prison delivery plots which resulted the escape of the prisoner by the way of the incendiary operation telegraph during the last few months.

The second report will probably be delivered to Governor Myers T. Cooper early next week, Gill said.

The state official, it was reported, is working on the theory that the blaze was the result of an escape plot.

POLICE FIND LIQUOR CACHE

Officers Seize 30 Gallons of Alleged Whisky in Sharpless Ct. Garage.

ONE MAN BEING HELD

Two Cars, Without License Plates Taken in Raid; Believe One Man Escapes.

Police last night cut deep into what they believe to be a rum distributing ring here when they arrested Floyd Moore, 32, of 486 Bellentine av., and confiscated approximately 30 gallons of alleged liquor on Sharpless court at 10 o'clock.

Two Ford coupes, one without license plates, were taken by police. A second man escaped, as a police officer fired at him. The shot is believed to have struck the man in the foot, police say.

Charges had not been filed against Moore this morning. He will be held in city prison until a charge is preferred and he is given arraignment in municipal court, according to Police Chief J. W. Thompson.

The men had apparently been using the garage of a vacant house on Sharpless ct. as headquarters. According to the plan police believe was used, the car, loaded with liquor, was driven into the garage, where it was left as a cache. Liquor would then be taken from the car as needed.

The second car was used by the men to visit the cache.

The bulk of the liquor was contained in five gallon cans. Several cases of empty bottles, and others filled with alleged whisky were also taken.

216 LIVES SAVED AS ORPHANAGE BURNS

Bricks Hurled Through Windows Warn Children and Nuns of Flames.

By The Associated Press

MILWAUKEE, May 22—The 190 small boys and 20 nuns at St. Aemilian's orphanage of the St. Francis Order trooped down the fire escape in their night clothes shortly after 1 a. m. today as fire destroyed the $350,000 building.

Though the fire broke out in the dead of night when all were asleep, none was killed or injured.

A party in a passing automobile discovered the fire. They hurled bricks through the windows to arouse the nuns and children. The sisters took charge of the children and directed them without panic to the fire escapes and safety.

Firemen from Milwaukee were called to aid the volunteer firefighters who answered the first alarm. The origin of the fire was not determined.

All the boys at the orphanage are under 15 years of age. They were asleep on the second and third floors of the four-story brick and frame building.

The Rev. Fr. Joseph Kaeln, superintendent of the orphanage, was ill and not present when the fire broke out. The Rev. Fr. Joseph Bahin, acting superintendent, supervised the rescue.

Mayor Issues Proclamation on Poppy Day

Marionites have been urged in an official proclamation of Mayor L. Don Jones to observe and support national Poppy day, Saturday. Poppies will be sold on the streets by American Legion Auxiliary workers, the income going to disabled veterans. Following is the mayor's proclamation:

"Thirteen years ago at this time the world was in distress. A call came to the youth of our land, "Your Country Needs You." Millions, from every walk of life and from every section of this great country, answered that call. Many thousands of them sleep forever under the poppies on Flanders Field. Many returned home unfit to cope with the demands of our strenuous life, because, having offered their bodies on the altar of freedom, only a partial sacrifice was accepted. To these, their wives and little ones, this country owes a debt it can never pay. Once a year we are asked to buy a poppy, made by these crippled heroes and offered to us through the efforts of their former comrades and friends, the American Legion and the Legion Auxiliary.

"Therefore, I, L. Don Jones, mayor of the city of Marion, hereby designate Saturday, May 24, as "poppy day." I ask that the citizens of Marion support this proposition as the one means by which they can help pay the debt that they owe the ones who made so great a sacrifice for them."

MARION GAINS 72 IN CENSUS RECOUNT

Recheck of Figures Gives City Population of 31,077; County Higher.

A recheck of Marion's population shows an increase of 72 persons over the 31,005 figure announced two weeks ago by District Census Supervisor Frank A. Beery, he announced today.

The new unofficial figure gives Marion a population of 31,077, and the county outside the city a population of 14,403, an increase of three over the 14,400 figure given out last week. The grand total for the city and county is 45,480, or 75 more than the 45,405 first announced.

The increase of 75 was due, Beery said, to individuals missed by enumerators on their first rounds.

The new figure is an increase of 3,186 persons over the 27,891 census of 1920.

Data for Marion city and county was mailed in a heavy box yesterday to the federal census bureau in Washington for its official check.

Four of five Ohio cities whose official 1930 census was reported from Washington today by the Associated Press show increases over the 1920 figure.

Delaware, the fifth city, fell slightly from its 9,706 mark in 1920 to 8,683 this year.

Akron showed a big increase from 208,435 to 252,853 in the 10 years, while Springfield had an increase from 60,840 to 68,606. Coshocton went from 10,847 to 10,955 and Bucyrus from 7,219 to 8,122.

LA RUE PHONE COMPANY SOLD

Ohio Associated Telephone Co. Buys Marion County Concern for $27,000.

LINE TO BE REBUILT

New Owners Will Spend $25,000 in Reconstruction Work, Manager States.

The LaRue Telephone Co. was sold today to the Ohio Associated Telephone Co., which operates the Marion telephone system. The sale price was $27,000.

Only the physical assets of the company, which went into the hands of receivers last March, are included in the sale. Actual transfer of the property will not take place until late this month.

A. J. Berry, of Marion, general manager of the Ohio Associated Telephone Co., announced today that the LaRue system would be rebuilt at a cost of approximately $25,000. The system was partially wrecked during the winter by sleet storms which tore down wires.

Attorney Frank C. Dunbar, of Columbus, was appointed receiver of the company in March after a petition for receivership had been filed by Jerry Carroll and others. He found the company's financial situation to be such that it was unable to pay current operating expenses and immediately asked and obtained from the court permission to sell the company's assets.

A public sale was scheduled for last month, but improper service of summons on company officials caused its postponement. Dunbar this week obtained permission from court to make the sale private.

When the system is rebuilt, first-class service will be resumed to all former subscribers, Berry said today.

LAST FUND REPORTS TO BE MADE TODAY

Results of Drive To Be Learned at Dinner in Star Auditorium.

Final results of the second annual Community Fund drive will be made public at a banquet in The Star auditorium at 6:30 o'clock tonight. The banquet marks the close of a four day campaign to raise $72,986 to finance 19 Marion community and welfare agencies for the next 12 months.

The objective of the drive was $19,516 away when workers reported at a luncheon at the Marion club yesterday at noon. Solicitors had secured subscriptions of $53,477 at that time.

An intensive drive to raise the final $19,516 was launched this morning when solicitors met at the Marion club for final instructions and supplies.

Several hundred persons are expected to attend the banquet tonight. All workers and guests in accordance with rules for report luncheons and other dinner meetings of Fund groups, will pay for their meals.

GRAF SPANS SEA, WRITES NEW PAGE IN AERIAL HISTORY

Arrives in South America After Passing Over Equator, First Lighter Than Air Craft To Enter Air Over Southern Hemisphere.

GREAT THRONG IN BRAZIL FOR WELCOME

BULLETIN

By The Associated Press

RIO JANEIRO, May 22—Pernambuco has unofficially reported that the Graf Zeppelin will arrive there between 3:30 p. m. and 4:00 p. m., Eastern Standard time.

* * *

FERNANDO DO NORONHA, Brazil, May 22—The huge dirigible Graf Zeppelin, rapidly nearing the end of her South Atlantic flight from Seville, Spain, to Pernambuco, flew over the island of Fernando Do Noronha off the Brazilian coast at 1:40 p. m. today (10:40 a. m. Eastern Standard Time).

After circling around the penal colony for 15 minutes, the Graf turned her nose toward the Brazilian coast 125 miles away and started on the final hop to Pernambuco.

The island of Fernando Do Noronha is about 125 miles from the coast of Brazil, which the Graf Zeppelin should reach by mid-afternoon. Apparently she was making better time than had been expected, as she had wirelessed Pernambuco she would not arrive until evening.

Worst of Route Passed

With the sighting of the big ship over Fernando Do Noronha, the first had definitely covered the most difficult part of her long flight from Friedrichshafen to the New World. She probably will make a land fall at Natal and then coast down to Pernambuco, where she planned to stop a few hours to take on water supplies and fuel before continuing on to Rio Janeiro.

The Graf crossed the equator this morning and made her first appearance in the southern hemisphere.

Extensive Preparation

The mooring mast constructed at Pernambuco for the zeppelin had been painted red and white for greatest visibility, and a watchman was stationed at the highest nearby point to get the first glimpse of the visitor from over the sea. Grandstands were erected and provisions made for parking of motor cars to accommodate visitors.

People gathered from all over the surrounding country to witness arrival of the Graf. Entrance fees to the field for those who wished to see the landing for themselves ranged from 60 cents to $1.25 with higher prices for motor cars.

History Made When Equator Is Crossed

(Copyright, 1930, by International News Service)

ABOARD THE GRAF ZEPPELIN, AT SEA, May 23—The giant dirigible Graf Zeppelin, travel-burdened monarch of the air, made aeronautical history this morning when it pushed its great bulk across the equator, mythical "belt of the world," at 8:38 a. m. ship's time (7:38 a. m. eastern daylight saving time).

It was the first time in history that a lighter than air craft had ever crossed the equator. As the huge dirigible swept into the southern seas, a cheer of triumph went up from the throats of the thrilled passengers.

Even the most travel-wise among the 19 passengers aboard the silver craft felt an undeniable thrill when the word came through from Dr. Hugo Eckener's control room that the ship was over the invisible line, traced through continents and seas, that divides the north of the world from the south.

It was a complex thrill, for not only had the Graf done something new again that no dirigible had ever done before, but the crossing of the line placed the Zeppelin on the "home stretch" of the craft's sixth successful spanning of the Atlantic ocean.

During the early morning hours, however, when most of the passengers were asleep, the Graf had run into rain squalls. Gusts of wind-driven rain flooded the bridge and the Infante Alfonso of Bourbon, cousin of the King of Spain, who is among the passengers, was rudely awakened by water dripping into his cabin.

Most of the passengers slept through the squalls, and the Graf soon cruised into more clement weather.

Dr. Eckener decided this afternoon to land the Graf at Pernambuco this evening, remaining there overnight. After loading on additional fuel, the dirigible will leave at 5 a. m. tomorrow for Rio De Janeiro.

The overnight stop at Pernambuco was decided upon in order to enable the Graf to arrive at Rio on Saturday morning.

CATTLE TEST OBJECTOR HELD

Ed Klingel, Near Waldo, Under $300 Bond; Charge Filed by State Man.

HEARING TO BE MONDAY

Farmer Is First in County To Oppose Examination of Herds for Tuberculosis.

First objection to the tuberculin test of cattle in this county was raised yesterday when Dr. J. H. Pierce, of the animal industry department of the department of agriculture, attempted to examine cattle on the Ed Klingel farm on Route 98, near Waldo.

As a result, Klingel is free today on $300 bond, pending a hearing Monday morning in probate court on a charge of interfering with an officer in the performance of his duty.

If convicted of the charge, Klingel is liable to a fine of between $300 and $2000 and a year's imprisonment.

The test, which has been under way in this county for more than a year to detect and eradicate animals affected with tuberculosis, has been met with favor on every side until the veterinarian went to the Klingel farm.

Klingel is quoted as saying the test was "being put over on the farmers" and that "the test would probably mean a raise in taxes."

No actual violence occurred at the Klingel farm. Dr. Pierce filed the affidavit charging interference. Klingel, through his attorney, did not enter a plea to the charge, as the law on the matter had not been investigated. J. W. Jacoby is being retained as counsel for Klingel.

15 ENROLL FOR C. M. T. CAMPS

Present Registration Is 50 Per Cent More Than Marion County Quota.

Although Marion county has enrolled 50 per cent more than its quota, registration is still open for entry into Citizens' Military Training camps this summer, it was announced today by Ervin H. Shade, chemistry teacher at Harding High school, who is Marion county chairman.

Fifteen youths between 17 and 24 years, the age limits, have enrolled in the county. The quota was 10.

Further registration is not encouraged by Shade, but young men who are anxious to enroll may do so, he said. Their enrollment will be accepted in order to take up any slack that might occur through any possible withdrawals, he said.

The last 11 of the 15 youths who enrolled are Findley Fox, of 703 Merkel av.; Glenn Hupp, of 251 Owens st.; Horace King, of 244 South Grand av.; Ivan O'Brien, of 285 Edward st.; Charles Popoff, of 347 Pearl st.; Joseph Rathell, of 400 Blaine av.; Curtis Henson, Karl McLead, Herschel Penry, Harvey Shappard and Paul Farrington, all of Prospect.

Camps will be held at Fort Benjamin Harrison, Ind.; Fort Thomas, Ky., and Camp Knox, Ky. Local applicants will be sent to Fort Harrison, whose camp period extends from June 20 to July 19, inclusive.

Those who are accepted are paid their transportation to and from the camp and food, clothing and shelter is provided free of charge for the month's period.

Each of the four states in the area has gone over its quota, according to Shade. West Virginia enrolled 121.3 per cent of its quota and Ohio was second with 108 per cent. Ohio's quota was 2,200 youths.

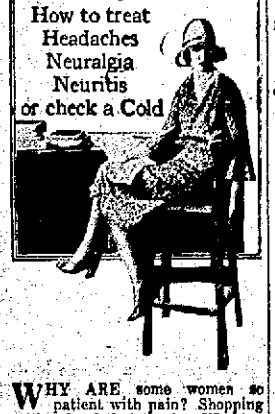
How to treat Headaches Neuralgia Neuritis or check a Cold



WHY ARE some women so patient with pain? Shopping with a head that throbs. Working when they ache all over. Sometimes it's hours before they take Bayer Aspirin and get relief! Most men take these tablets the moment some ache or pain threatens their comfort. And so should you. Genuine Aspirin is perfectly harmless; cannot depress the heart. The tablets stamped Bayer are always genuine Aspirin; always the same, always *safe*. It isn't sensible to suffer with a headache, a cold, neuralgic pains, or anything else that these tablets relieve almost as soon as swallowed. Buy by the bottle and save money. The Stars Say—

For Thursday, May 22

WHILE there may be some movement and enterprise in the affairs of this day, according to the astral activities, yet there are some adverse conditions to be encountered. There is a sign of subtle menace attending new projects, and there is definite danger from rash investments, loans or speculations. With judicious management and proper precaution things may be made to prosper. Personal correspondence may be of an interesting nature.

Those whose birthday it is are on the eve of a fairly active year, with the spirit of enterprise under good stimulus, but withal new ventures carry a menace of treachery or fraud, and more than ordinary precaution is admonished in the employment of funds in hasty investments, speculations or loans. With due consideration of this possibility of loss there is some promise of success. A child born on this day will be disposed to be very lively, enterprising and energetic, but it may likewise tend to hold a loose reign on its finances. Thrift and prudence in this respect may assist it to success in its undertakings. Also it may be subject (and prone) to subtlety and strategem in handling its affairs.

Bride-Elect Honored at Meeting of Chapter

LARUE, May 22—Mary Lenz chapter, Eastern Star, held its regular meeting Tuesday evening with 85 members present. Only routine business was conducted. After chapter closed the worthy matron, Lena Gillespie, invited the associate matron, Miss Doris Freeman, and the members to the dining room, where a surprise miscellaneous shower had been planned for Miss Freeman, whose marriage to Sheldon Virden will be an event of the near future. The honored guest received many gifts. Refreshments were served by Mrs. E. E. Everett, Mrs. Ella Clements and Mrs. Gillespie.

MAYOR FACES OUSTER MOVE

Petitions for Recall Vote on Detroit Executive Placed in Circulation.

By The Associated Press

DETROIT, May 22—A citizens' committee, represented to include a number of persons who supported Mayor Charles Bowles for election last fall, today was ready to circulate petitions for recall of the executive. The petitions made their appearance late today and contained 12 charges against Mayor Bowles.

In order to bring about a recall vote, 80,807 signatures of registered voters are necessary. Members of the committee indicated they expected to have the required number of names by Saturday to present to the city clerk. The clerk in that case would be required to call an election in 20 days.

The move to recall Mayor Bowles followed his dismissal of Police Commissioner Harold H. Emmons, whom he appointed slightly more than four months ago. "One of the charges against the mayor is that he discharged Emmons for "ordering enforcement of law."

Emmons ordered a series of raids on gambling places last Saturday while Mayor Bowles was at Louisville attending the Kentucky derby. Two hundred and seventy-six men were arrested, 90 of them in an alleged "handbook" half a block from the city hall. More than 100 of the men already have been convicted and sentenced.

Replying to the mayor's letter of dismissal, Emmons charged that Mayor Bowles "insisted on assuming entire responsibility" in handling of vice conditions in the city. The mayor later denied he had interfered with the police department.

Although dismissal of Emmons is regarded as having precipitated the recall move, the petition also alleges that the mayor "substituted secrecy for frankness in public business," and "seeks to weld street railway and other city employes into a political machine."

A man's mental balance is not synonymous with his bank balance.

YEAR OF TRAVEL FACES PRESIDENT

Prospective Itinerary for Hoover Takes in Thousands of Miles.

By The Associated Press

WASHINGTON, May 22—Thousands of miles of travel lie before President Hoover this year, if he carries through the tentative itinerary now in prospect.

With a month's trip to the Pacific coast definitely planned for the summer, the chief executive also has under consideration a visit to Boston for the American Legion convention in October and the competition of his good will tour of Latin-America, begun while he was president-elect, by visiting Cuba and Mexico.

The president would, however, have to average more than 1,500 miles a month between now and the opening of congress in December to complete the extensive program.

Both Cuba and Mexico have been assured by Mr. Hoover that he would visit them during his term in office, as he had planned to do before he cut short his good-will tour in 1928. Since then President Ortez, of Mexico, has visited this country and the American chief executive desires to return this call.

While the western tour has been determined upon, probably in August, the intinerary is yet indefinite. Invitations for the president to visit various communities still are being received.

Students of Journalism Hold Party at School

Haver Alspach, Press Club President and Next Year's Editor of Herald, Makes Short Talk; Program is Burlesqued by Musical Numbers; Teachers Speak.

Marion's young journalists, members of the Press club of Harding High school, gave their annual party last night in west hall of the high school. Members of the club and their guests, and members of the high school faculty were present.

Haver Alspach, president of the club and editor-in-chief of next year's weekly editions of the Harding Herald, opened the program with a short talk, and turned the meeting over to Betty Mann, program chairman.

First on the program was a quartet of surprising ability. Haver Alspach, Jack Elliott, Harold Lindsey and Lee Kleinmaier sang a rousing college song. Alspach followed this with a humorous take-off on Rudy Vallee singing "Vagabond Lover." Jack Elliott sang a love song to Whitney Cookston, followed by solos by Lindsey and Kleinmaier. The first number on the program closed with a comedy duet by Elliott and Alspach.

Miss Hazel Markwith, instructor in English literature gave a short talk on "The Faculty in Relationship to the Journalism Student." Miss Markwith pointed out that the informal manner of the acquaintances of journalism students, brought about a closer relationship between the student and the faculty member. Miss Markwith commended Miss Lucile Foreman, journalism instructor, as a remarkable illustration of a teacher who is working with her pupils, and not an instructor with a desk between herself and her classroom.

Dorothy Oliphant read an interesting account of the experiences of two newspaper men on their jobs over the country. An impromptu speech was made by Harold Lindsey. Roma Bader gave a poem of praise to newspaper men. Closing the program a play, "The Editor-at-Large," written by Margaret Hemminger and directed by Catherine Cheney, was presented by Lowell Haldeman, Twila Gilbert, Helen Cross, Lucille Lowrey, Jack Bell, Joseph Roby, Virginia Shipley, Lee Kleinmaier, Betty Mann and Margaret Hemminger.

Betty Mann was in charge of the entertainment, Miss Laura Wood was in charge of refreshments and Jack Elliott was chairman of the invitations committee.

Refreshments were served by Miss Wood and her committee.

This Woman In 4 Weeks Lost 19 Pounds of Fat

Here's a letter written Oct. 21, 1929, by Mrs. Fred Barringer of Lewistown, Montana, that ought to be read by every overweight woman in America.

"Gentlemen: I first saw your advertisement in a Billings, Montana, paper and decided to try Kruschen Salts.

I started taking them every morning as directed as I was very much overweight and wanted to reduce.

I had tried going on a diet but would get so hungry that my diet would not last long, so I decided to give "Kruschen Salts a fair trial. The day I started to take them I weighed 259 lbs., and at present, which has been just about four weeks, I weigh 239 lbs. And I must say I feel better in every way, besides looking much better. Kruschen Salts had a decided effect upon the quantity of food I took and stimulated my desire to greater activity.

I have recommended Kruschen Salts to many of my friends, in fact, have a number of them taking Kruschen Salts.

May all large people both men and women, who want to reduce in an easy way, give Kruschen Salts a fair trial. I am sure it will convince any one."

A bottle of Kruschen Salts that lasts four weeks costs but 85c at Bradley's Drug Store, Heaney & Cooper or any druggist in America. —Adv.

RICHMAN BROTHERS

167 West Center Street

READ THE FACTS

In 1879, our first modest factory was established in Cleveland, as the outgrowth of a little shop in Portsmouth, Ohio, where my father began to make good clothes seventy-seven years ago.

From that day to this, we've made the best clothes we knew how to make. We've improved the quality and added more value, year after year, as wider experience and greater resources have made improvement possible.

We're proud to sell these clothes under our own name . . to back them with a guarantee which pledges not only our long reputation for business integrity, but every dollar of our assets.

The modest factory of 1879 has grown to the largest clothing factory in the world, employing 3800 skilled needle workers throughout the year. Every one of these employees is a part owner of this business . . every one connected with this company is the owner of stock purchased out of their weekly earnings . . evidence of their supreme faith in the quality of their product and the destiny of their company.

A second factory in Lorain, Ohio, adds thousands of suits, weekly, to the immense production of our Cleveland plant. Fifty-five retail stores in 50 cities, and 750 factory trained and bonded sales representatives, place Richman Brothers Clothes within convenient reach of every man in the United States.

Yet this is *not* a chain store organization. Our stores are factory branches, or service stations, established to facilitate the original Richman plan of selling "direct from our factories to you" . . . a plan which saves you the middleman's profit on every purchase.

The costly appearance and quality of Richman Brothers Clothes place them in a class so far above their price that there is no basis for comparison . . . they establish a standard of value without precedent in clothing history.

This crowning achievement of Richman's unparalleled progress, gives assurance that when it is possible to produce finer clothes of greater value, they will bear the Richman Brothers label.

Added proof of Richman leadership will be found in the splendid showing of new suits we now offer for summer wear . . . . suits that are fashionably correct in every detail . . . . tailored of fabrics identical in quality with those featured in many stores at $50, or higher . . . . a variety that affords wide choice of the newest patterns and colorings, in sizes to fit every type of figure perfectly.

Any Business Suit, Topcoat, Golf or Dress Suit in every Richman Brothers Store in the U. S. is always the same price.

Six Gotham youths of nineteen are facing murder trials in New York City. What else could be expected in the face of the maudlin sentimentality, which prompts many to hold that youthful criminals must be treated differently from criminals of major years?

From what we had read about Owen J. Roberts we thought his nomination to the United States supreme bench was a good one, but since the senate has seen fit to confirm it without question, we confess we are beginning to have our doubts.

There are 1,712,000 jobless in Great Britain at present, the highest unemployment record there in eighty years, the increase since the beginning of the year being 233,000. The Labor government can not long hold with a mounting record like that.

The right to publish the memoirs of Marshal Foch, a manuscript of 150,000 words, has been sold by his widow to an American firm of publishers, from which we take it that we are to have more evidence of the little regard in which the great figures of the World war held each other.

Hunters of that stripe are not unlike people who cheat themselves when playing solitaire.

Geography and Statesmanship.

McNary, Smoot, Borah, Johnson, Nye, Norris, Walsh, Wheeler, Caraway, Robinson—ten of the most familiar names in the United States senate. Gillett, Gould, Trammell, Herbert, Hatfield, Keau, Dale, Glenn, Walcott, Black—ten of the most unfamiliar names in the United States senate. The first group represents states located west of the Mississippi, many of them in the Rocky Mountain area. The second group represents states east of the Mississippi.

The importance of western senators and the reasons for their importance have been discussed in an article by Jay Franklin. Mr. Franklin selected the title "Government by Consent of the Rocky Mountains" for his article, which appeared in a recent issue of "Vanity Fair."

Seniority is responsible in a large measure for the power which westerners enjoy in the senate. Senator Ashurst, of Arizona, for instance, has been in the senate since 1913. Hiram Johnson has belonged to the senate without interruption since 1916. William E. Borah's membership dates back to 1907, Reed Smoot's to 1903, Walsh's to 1912, and Phipps' to 1915. Consequently, committee chairmanships have been very largely cornered by these "Old Men of the Mountains," as Mr. Franklin sees fit to call them, although all are not strictly of that classification.

There are Senator McNary, of Oregon, chairman of the committee on agriculture; Senator Smoot, of Utah, chairman of the finance committee; Senator Norbeck, of South Dakota, chairman of the banking and currency committee; Senator Borah, chairman of the foreign relations committee; Senator Johnson, of California, chairman of the immigration committee, and Senator Smoot again as chairman of the appropriations committee.

Senate committees have a powerful governmental influence. Once having become familiarized with their mechanics, their chairmen enjoy a wide latitude of power. Westerners, relieved of the dangers of political competition which abount in eastern regions, are notably able to jockey themselves into these desirable positions and once there are hard to dislodge. Mountain senators in particular have long careers.

It is as the result of considerations of this nature that the candidacy of Dwight W. Morrow, of New Jersey, for the Republican senatorial nomination in his state is more than usually interesting to the East and Middle West. It is popularly felt that he may raise the general average of statesmanship in the senate, which has sustained serious injuries to its reputation in the last few years. The higher art of statecraft, after all, has little to do with longevity of life and political careers.

Patent Monopolies.

The department of justice's action in filing suit against ten leading manufacturers of radio equipment is the first step in a case which will establish a much-needed legal foundation for the mammoth industry which has grown up around radio equipment in the last few years. The suit will be concerned chiefly with the legality of the patent licensing arrangement believed by the plaintiff to constitute monopolistic practice.

A few years ago radio was anybody's game. It became evident rapidly, however, that the winner would be the manufacturing group which succeeded in cornering the largest number of radio patents, since that would facilitate unified development. Owen D. Young, who is chairman of the executive committee of the Radio Corporation of America, admits freely that this was the object of forming the R. C. A., and adds that he welcomes the suit.

The manufacture and sale of radio apparatus, as well as trading in it, are subject to the federal anti-trust laws, but invoking those laws against using patents to create monopolies is a new development. The radio act of 1927 provides that no broadcasting license is to be issued to any person found guilty by a federal court of monopoly, or attempted monopoly, through control of the manufacture or sale of radio apparatus, and any station license may be revoked if the licensee is found guilty of violating any anti-trust law. It is interesting to know, however, that courts have held it is not illegal for a monopoly to be created through the sheer excellence of a patented article, but that at the same time the grant of a patent by the government does not authorize its use for monopolistic practices.

The proposed merger of the R. C. A. with other large producers of radio equipment also will be attacked as a move which will have the effect of "perpetuating the control already obtained by the defendants."

Two suits brought by the De Forest Radio company against the R. C. A. to enjoin the latter body, as sole sellers of radio tubes made by General Electric and Westinghouse, from enforcing contracts have been successful. The contracts in question involved the use of R. C. A. patents with the proviso that the users had to purchase a certain number of R. C. A. tubes for initial installation in sets manufactured by them. These contracts were interpreted as monopolistic practices and a temporary injunction was granted. A later suit involving the same parties resulted in a permanent injunction against the contracts in question.

The United States is becoming conscious of monopolies in increasing degrees and the results of the suit against leading radio equipment manufacturers will determine to a considerable extent the limitations of the "patent monopoly"—a distinctively modern development in the monopoly field.

In a raid conducted by forty-five dry agents out in arid Kansas, six stills and 5,000 gallons of alcohol were seized and a score of still operators and bootleggers were apprehended, one of the men seized being a county attorney. Can it be that dry Kansas has succumbed to the practice of voting dry and drinking wet?

A Chicagoan, who goes by the name of "King George" Hillson, is held by the police authorities of the Windy City as the pay-off man in the recent bombings up there. He may be a bomber, all right, but with that name he can hardly be held to be one of "Big Bill" Thompson's henchmen.

The pastor out in Mendota, Illinois, who shot the church janitor and the latter's wife to secure possession of an incriminating letter written by him to a woman member of his congregation, has been given a penitentiary sentence of from one to fourteen years, which rather goes to dissipate his assumed right to shoot up people to protect his reputation as a minister.

A San Francisco man has been sued for $25,000 damages by a woman entertainer, who charges that she was badly beaten up by one of the women guests at a party given by him at which she was hired to put on her act. There's no getting away from the fact that the host who serves the post-war stuff to his guests is taking grave chances.

Washington architects have abandoned the use of sliding doors in their plans for residences, holding that they are expensive and seldom used. Possibly so, for the purpose for which they are intended, but in homes not equipped with gymnasiums, opening and closing sliding doors affords a mighty good substitute, usually, for gymnastic exercise.

"I am not displeased when the woman I am with is beautiful enough to attract attention from other men," says Rudy Vallee, and now every silly flapper and every elderly spinster or matron the crooner has ever addressed will probably take his remark as a personal compliment.

After a survey of 20,000 pupils, a Northwestern university professor asserts that children have but a vague grasp on the Bible. If he will make a survey of 20,000 of their elders, he might find that the majority of them didn't have even so much as a look-in on it.

Relatives of a Minnesota woman, who died last month after spending forty years in bed "for spite," are seeking to set aside her will in which she bequeathed her $10,000 estate to the Watch Tower Bible and Tract society, of Brooklyn, on the ground that she was of unsound mind at the time the will was drawn. If they can establish a forty-year stay in bed for spite, the rest should be easy.

The ruling of former Commissioner Whalen, of New York City, that pedestrians have the right-of-way at street crossings where there are neither traffic officers nor lights, has been upheld by the New York courts, but the true aristocrats of the land can tell those in the metropolis that it's a heap sight better to continue to jump than to stand on their legal rights and become subjects for the attentions of the undertakers.

STRONGER THAN THE WALLS OF JERICHO.

Editorial Opinion.

THE SENATE CAPITULATES.

The senate has finally capitulated on the debenture clause in the tariff bill. Every one knew, including those senators who have given the debenture clause active support for months, that this would be the final outcome of the struggle over this unsound and uneconomic proposal. Every one knew, too, that the debenture clause was written into the bill originally with votes of senators who wished to embarrass the president and his administration. Had a Democratic president been in the White House, and had he opposed the debenture clause—as undoubtedly a Democratic president would have done—how many of the champions of the debenture on the Democratic side of the chamber under such circumstances would have voted to place debenture in the bill? While it is true that some of the champions of debenture are honestly of the opinion that it is a wise plan for the aid of the farmers of the country, it is also true that these gentlemen are in the minority, and that others have "held the nose" and voted for debenture for political reasons alone.

The jockeying over the tariff bill and its many provisions seems to be nearly at an end. Having turned its back on the debenture clause, the senate by a tie vote, which was broken when Vice President Curtis cast his vote in the affirmative, released the senate conferees from their pledge not to yield in any shape or manner in regard to the senate amendment which would remove from the president the power to adjust tariff rates by fifty per cent. in accordance with recommendations of the tariff commission. This is another proposal of the senate "coalition," adopted months ago when the tariff bill first was under consideration, which has been strongly opposed by President Hoover. It was aimed particularly at Mr. Hoover by his Democratic and insurgent Republican critics.

Unfortunately for the politically inclined coalition of the senate it has had to reckon with the house of representatives. The house does not as a rule lay claim to being the "greatest deliberative body in the world." The house is more practical, more efficient and, at the present, appears to have a better conception of party solidarity and to be guided less by the personal feelings of its members. Not long ago the house by decisive votes turned down both the debenture and flexible amendments of the senate. More recently the house conferees issued an ultimatum. They would hold no further meetings with the conferees of the senate until the senate had released its conferees from the promise not to yield in any particular on the debenture and flexible amendments. In other words, unless the senate took a different attitude there would be no tariff bill. It was up to the senate to fish or cut bait. The votes in the senate yesterday indicate that a majority of the senate is not ready to abandon the tariff bill. Indeed, the outcome has led to the belief that now a tariff bill is to be finally passed, minus the senate debenture and flexible features, and sent to the president for his approval. If the bill is brought back from conference without either of these features, an effort will be made to kill it in the senate. But the breach has been made in the wall and the opposition is likely to yield in the end.—Washington Star, May 20.

GOV. MOODY AND THE SHERMAN MOB.

In Texas itself, one notes a desire for more complete information as to possible orders from the governor's office, on the night of the court-house burning at Sherman. The captain in charge of the Texas rangers at Sherman, on that night of mob mania and arson, was said to have had from Governor Moody a message reading: "Protect the negro if possible, but do not shoot anybody." Such an order, if given, could be construed as little less than a license to the mob to do its worst.

The governor denied having issued such an order, and Captain Hamer says that he did not receive such an order, but that a newspaper man came to him and showed him a message said to have been received over the Associated Press wires from the governor, in the words above mentioned. According to the captain's statement, he had taken the message to be genuine.

What ought to have come from the governor's office would have been a message explicitly directing Captain Hamer and his men to protect the prisoner at all costs, and giving assurance that additional forces would reach Sherman as quickly as they could be sent, or recruited on the spot. Governor Moody is the last man who could claim that he did not realize the possibility of just what actually happened.

As the Dallas News asserts, the good name of Texas demands that the matter of the alleged message instructing the rangers not to shoot shall be cleared up. But even so, the matter of the absence of any order of an opposite nature will remain unexplained.—Columbus Dispatch.

Slouchy Bodily Postures.

BY ROYAL S. COPELAND, M. D.

It is a good thing that physical education is now so popular. I am glad it is being given more prominence in the schools. Its methods of publicity bring it before the public mind.

Good posture of the body makes for good health. If you don't have good posture, and your mistakes are not corrected early, you are in danger of many ills of the body later on in life.

You may look over a group of persons assembled anywhere, in the street or any public place, and you will be astonished to find how few have good posture of the body. How many do you see who have the splendid upright carriage?

The time to teach posture is in early childhood. A child is easily taught to stand straight. Every child should be trained so that he will have a straight back and a well-poised head.

At school your child may have some daily exercises in gymnastics to teach him bodily exercise and body poise. But if you do not encourage him at home to practice the things he learns at school the chances are he will forget to apply them. What becomes habit with him now will probably last him as a habit through life.

Years of round shoulders, a bent back and slouchy bodily posture bring with them weak muscles of the stomach and intestines. Indigestion and worse things are bound to follow. The lungs are restricted and can not do their full duty.

What is the correct posture? A correct standing attitude enables you to carry a book or other load on top of the head with perfect ease. The back is straight, legs are straight, the abdomen is kept in, the head is erect and chin in.

Look at the outstanding men and women in the world. You will find scarcely one who isn't possessed of good posture and an alert, active body and mind. It is the man and woman thus endowed who most easily make good in the business and professional world. The young man with a good carriage, well-poised and pleasing in personality has a distinct advantage over others in the line of applicants for the business position. Good posture gives you self-respect.

Sometimes, of course, poor posture is due to poor health. We live in a hothouse atmosphere for the most part, and too many of us get far too little exercise. Right living brings better health. Proper exercise out-of-doors builds for bodily resistance to disease. Good posture does more for you than it would seem possible.

Sitting in the right posture—that is, holt upright—keeps stomach and bowels in the right place, and the weight of the stomach helps the automatic movement of the bowels. With it comes free elimination of the intestines.

You can breathe deeply with the right posture. Deep breathing from the lungs is good for the physical vigor and for the lungs. It tends to purification of the blood and to its increased flow. It reacts on the stomach and bowels, stimulating the work they have to do.

Isn't it worth while to practice good posture in sitting and standing? Is it not wonderful that you have the privilege of teaching your children that good posture is a necessity for good health? You are giving them something worth more than wealth.

Particles and Waves.

BY ARCHIBALD HENDERSON.

The trouble with nature is that it is not accommodating! It will not adapt itself to the intellectual requirements of man.

Nature pays no heed to the analytical difficulties which man encounters in his attempt to plumb her abysses and pluck out the heart of her mysteries. Ingenious models of the atom—the static model of Langmuir and the dynamic model of Bohr, for example—are ingenious constructs devised to explain the interior structure and behavior of the atom.

Both of these brilliant and imaginative attempts to construct a model of the atom seem to have broken down. The phenomena of nature, alas! are far more complicated and mysterious than Langmuir and Bohr dreamed.

According to those two theories, electrons were thought of as behaving like particles. The new theory of Schroedinger conceives the atom as continuous and vibrating in more than three dimensions. We do not know just what it is that vibrates inside the atom, nor why atoms should vibrate in dimensions more than three in number. It is at present virtually impossible to arrive at any visualization of atomic processes.

As Davisson says, the theoretical physicist has outgrown the ambition of Lord Kelvin to devise a mechanical model of every physical phenomenon. It has been discovered by the mathematical physicist that a certain esthetic pleasure is derived from dealing with calculations in symbols which evoke no mental picture whatever.

To all the new theories of the atom a purely pragmatic test is applied. This test is not whether we can make a diagram or picture or model of the phenomenon. The test of the theory is: will it work?

These are not new difficulties. They have long been familiar in the conflicting theories regarding light. Sir William Bragg once said that physicists regarded lights as a wave phenomenon Mondays, Wednesdays and Fridays, and as a corpuscular phenomenon on Tuesdays, Thursdays and Saturdays. Today the physicists must regard the electron as both waves and particles every day of the week!

The new theory of the atom put forward by Schroedinger conceives of the atom as undergoing peculiar fluctuations in density. The vibration is conceived, not as an advancing wave but as a standing wave, like the vibration of an ordinary violin string.

If the atom is in a stationary state, as we say, no radiation is emitted. But suppose that two vibrations associated with the atom occur simultaneously. Then there occurs a beat frequency; and this constitutes the frequency of emission.

This agrees precisely with the results attained by Bohr, in his corpuscular theory of the atom. A co-existence of two states of vibration occurs while the atom is radiating. And this co-existence occurs while energy is being transferred from one vibration to the other. These vibrations must be thought of, not as mechanical motion, but as electrical fluctuations of some unknown sort.

In his "New Frontiers of Physics," Heyl has given a lucid exposition of the Schroedinger theory. An emitted electron, he says, would be a little bunch of waves thrown off from a larger vibrating sphere, something like a wisp of flame thrown up from a wood fire, except that the electron lasts indefinitely. Perhaps it meets another vibrating sphere and coalesces with it, adding its energy to existing vibrations or contributing a new frequency to the atom * * * * *.

As in Einstein's theory of gravitation, the speed of the electron is here suggested to be a space property. — Copyright, 1930, International Feature Service, Inc.

New York Day by Day.

BY O. O. McINTYRE.

New York, May 22—The Bowery a curious economic question mark—the breadline—is thinning now that warm weather has arrived. Thousands of the shuffling figures who clutter at mission doors at dusk for hot coffee and a free flop have taken to the open road and back-door handout.

One of the distinguishing features of the breadline to me was that almost invariably the members wore caps. You rarely saw a hat. The cap becomes a badge of the down-and-outer. The missions are frankly conscious the breadline is composed chiefly of professional floaters.

The floater is the vagabond without charm or romance. He does not want a job nor is he interested in nightly services, save for the material rewards of food and lodging. Yet no floater is turned away. Once in awhile there is a conversion and regeneration.

The mission superintendents themselves are paragons of patience. Many have been down and outers and often criminals before "they saw the light." They believe if they were able to turn from wicked paths into respectability there is hope for all.

Nightly they exhort, pray and call sinners to the bench. Sometimes half the audience is in an alcoholic haze, snoring loudly through the services but there seems to be no such word as discouragement in the lexicon of the mission worker. They carry on against overwhelming difficulties.

The chronic bum drifts from one mission to another through the winter months. The only impediment to his freedom is he must be in the sawdust carpeted flop room by 9 p. m. Regulars in the breadline have frequently mingled together for years yet rarely know each other by real name.

Among the submerged, pasts are never discussed. Men acquire such names as "Red," "Slim," "Fatty" and the like and thus are known to their fellows. Sentiment has long since congealed. Each is strictly for himself. Conversation is restricted to monosyllables.

In a Bowery doorway Lisle Bell and I once saw an example of down-and-out sympathy. A forlorn fellow was waiting the ambulance after a fall down subway stairs. A buddy, leaning over him, consoled rather tenderly, but bitterly: "Even if you croak, you won't be worse off."

The Way of the World.

BY GROVE PATTERSON.

News dispatches from New Orleans tells us motorists will one day travel along a lane of azaleas, wild roses, verbenas, poppies, and under the sheltering boughs of silver maples and royal palms, on their way from Florida to California along the road that is known as the Old Spanish trail. Workers will be sponsored by women's clubs, civic clubs, and others. Here we have the next step in the development of automobile transportation. First we had to have smooth, hard roads. Then we had to have wider roads. Now we look to roads that will be beautiful. Beauty comes late in civilization but it rates high.

Another news item tells us Harvard students have banded together to raise a fund to pay university scrub women better wages. Students feel that the women have been underpaid and inasmuch as they have failed to get official action they are taking the matter in their own hands. We read of a new musical instrument built at a technical school in which beams of light and a photo-electric cell have been utilized to produce entirely new musical sounds. It is said the new instrument "will produce synthetic musical sounds which have never been heard before," and in addition, is capable of reproducing the sounds of most of the existing instruments.

The instrument, which has not yet been named, is played in the manner of a piano, and the first experimental model, which has a three-octave keyboard, was designed to copy the deep, resonant tones of an organ. The sound was synthesized from the analysis of the tone of a large pipe organ. By slight changes, however, the instrument can be made to reproduce the sound of almost any instrument, such as a violin, clarinet or oboe. Musicians who have heard the instrument believe it opens a new fields for "musical expression."

Listen to E. W. Butterfield, New Hampshire educator, who says the so-called intelligence test we hear so much about from school teachers is only a means of ascertaining whether a pupil is school-dull or school-bright. How about Mary Jones? Butterfield says Mary Jones is a happy, home-loving girl. She loves to play the violin, but flunks in her geometry. She cooks well, but barely passes her French and gets through Latin after a hard struggle. Mary Jones might do poorly in an intelligence test, but there is no doubt that she is intelligent.

So don't worry too much about your boy's or girl's so-called intelligence test.

Impulses Reproduced

Within the theater R. D. Kell, another assistant of Dr. Alexanderson in television research, acting as control operator, received the light impulses, reproduced them on an instrument called a telephticon and then transferred them to a light valve, at which point the light was broken up to produce an image corresponding to the subject at the studio. Only the head and the upper part of the body were shown. Another receiver picked up the radio sound waves which were amplified through a public address system.

A FAMILY DOCTOR'S LAXATIVE IS BEST

Your health is too important! You cannot afford to experiment with your delicate bowels when constipation, bad breath, headache, gas, fever, feverishness, lack of appetite, energy, etc., warn of constipation. This applies not only to grown people, but more particularly to children. That's why a family doctor's laxative is always the safe choice.

Dr. Caldwell's Syrup Pepsin is prepared today under strict laboratory supervision from fresh laxative herbs and other pure ingredients, and exactly according to Dr. Caldwell's original prescription.

Today, millions of families rely on Dr. Caldwell's judgment in the selection of their laxative. So, Dr. Caldwell's Syrup Pepsin in bottles ready for use, sold in all drugstores, is now the largest selling laxative in the world.—Adv.

ILLNESS FATAL TO WOMAN AT HOME

Miss Caroline R. Kraner Dies at Home in Pleasant Township.

Miss Caroline R. Kraner, born in Pleasant township, died at 11:30 o'clock today at her home, one mile south of Marion on the Delaware pk., following an illness of some time. Complications was given as the cause of death.

Miss Kraner lived with her brother and sister, William H. Kraner and Miss Mary L. Kraner. She was the daughter of Christian and Catherine Elma Kraner, who are dead.

She was a member of Emanuel's Lutheran church and the Ladies society of that church.

Funeral services will be held at 2:30 o'clock Saturday afternoon at the Kraner home, in charge of the Rev. J. W. Schillinger, pastor of First Reformed church. Burial will be made in Marion cemetery.

DROWNS IN PIT

CANTON, O., May 22—George Fording, 33, of Alliance, was drowned in Massillon near here today when he fell into 65 feet of water at a sand gravel pit.

Hemorrhoid Sufferers

Stop Pile Misery Without Cutting

Pile sufferers can only get quick, safe and lasting relief by removing the cause—bad blood circulation in the lower bowel. Cutting and salves can't do this—an internal remedy must be used. HEM-ROID, the prescription of Dr. J. S. Leonhardt, succeeds, because it removes this blood congestion and strengthens the affected parts.

HEM-ROID tablets as sold by druggists everywhere, have such a wonderful record for quick and lasting relief, that Heuney & Cooper always sell them with guarantee of money back if they do not end all Pile suffering.—Adv.

MASONS SEE DEGREE WORK

William J. Fies Takes Part of Gedeliah for Twenty-Sixth Consecutive Year.

The beautiful and impressive degree of super excellent master was portrayed at the closing session of the seventy-third anniversary and inspection of Marion Council No. 22, Royal and Select Masters, last night in the Masonic temple, before Inspecting Officer C. Wood Boyer and members of the council.

The work was preceded by a dinner served at 6 o'clock by members of Lydia Chapter No. 85, Order of Eastern Star and the conferring of the Royal Master and Select Master degrees in the afternoon. Music for the program was furnished by members of the Masonic orchestra under the direction of Bertram D. Myers.

For the twenty-sixth consecutive year the character of Gedeliah, governor of Judah, was portrayed by William J. Fies in the work of the super excellent master degree. The excellent presentation of the work last night was regarded by those in attendance as being the best ever put on by the local council. The playing of the orchestra added to the beauty and effectiveness of the work.

Aside from the part played by Mr. Fies, leading characters were interpreted by Fred W. Warner, Zedekiah, King of Judah; George H. Van Fleet, Nebuchadnezzar, King of Babylon; LeRoy D. Zachman, Jeremiah, a priest and prophet; Clarence L. Price, Nebuzaradan, captain of the guard.

Preceding the work of the super excellent master degree explanations of the emblems were given by Frank W. Little, master, George E. Waddell, deputy master and Clyde C. Smith, principal conductor of work.

NEW AIR MARKER ON FACTORY ROOF HERE

American Malleable Casting Co. Paints Huge Sign To Aid Aviators.

Marion's airmarking facilities were recently augmented by the establishment of markers on the roof of the American Malleable Castings Co.

"Marion" is heralded to passing aviators in letters 12 feet high and three feet wide. The word is 85 feet long. In accordance with approved rules, tops of the letters are towards the north.

A 50 foot arrow, broken by a circle 10 feet in diameter, points toward Marion airport. When the port has been given an official rating, it will be inscribed in this circle.

A number of various sized signs are in evidence from the air, aviators report. Among buildings and plants boasting air markers are the General Excavator Co., the bulk plant of the Shell Oil Co., the Barnhart building, and the City Ice & Fuel Co.

BRUSH RIDGE TO HONOR WAR DEAD

Graves of 32 Veterans in Cemetery Will Be Decorated in Ceremony.

Memory of war veterans whose bodies are interred in Brush Ridge cemetery will be honored Sunday when that community conducts Memorial day services.

Alfred Donithen, prosecuting attorney, will give the principal address of the afternoon services, to begin at 2:30 o'clock. The LaRue firing squad will salute the dead.

A short parade, led by Frank Scott, of Wyandot, will precede services at the cemetery. A combined band composed of members of Grand Prairie Grange and the LaRue band, led by R. T. Thew, of Grand Prairie, will furnish music for the parade.

Floyd Barrett, of Wyandot, is chairman of the Memorial day committee.

Graves of the 32 war veterans in Brush Ridge cemetery will be decorated with flags and flowers.

11-inch Snow Recalled

White Coating Covered Ground During Night of May 21, 1883.

"YESTERDAY afternoon it began to snow, lightly at first then gradually heavier, until 11 o'clock last night there was 11 inches of snow on the ground."

Forty-seven years ago words to that effect appeared as a news item on May 22, 1883. John H. Stoll, South Main st., was in a reminiscent mood yesterday afternoon, and the sunshine of the day recalled the gray skies of almost 50 years ago. It began to snow early in the afternoon of May 21, 1883, and at 11 o'clock that night he and friends measured the snow by a gatepost on North State st. The snow measured 11 inches.

* * *

THIS condition seemed to be general though.

John Smith, 650 Umapher av., who was living in Henry county at the time, said this morning that it began to snow there late in the evening of May 21, 1883, and snowed for two days. By actual measure 22 inches of snow fell in that period of time.

Corn was up from five to seven inches, and for a time it was feared that the crop would be destroyed, but there was an unusually good crop that year, Mr. Smith said.

REVEAL DISCOVERY OF NEW AUTO GAS

Provides Quick Starting in Cold Weather and Adds Power, Is Claim.

Continued from Page One.

Association of America, and was done under direction of George Granger Brown, professor of chemical engineering and director of research for the association.

He said his findings enable oil refiners to produce gasoline not only specially adapted to the modern automobile, but particularly fitted for all ranges of temperature encountered in the United States.

He restores to gasoline two ingredients which have been largely removed in recent years by the methods of production and refining. One of these is natural gasoline, found in the natural gas removed at the well mouth. It is highly volatile, vaporizing so readily that it fires easily in cold weather.

The other restored substance which gives the added power in hot weather is naptha, usually removed in the refining and sold as such or included in kerosene. Its effect is opposite from that of natural gasoline, retarding vaporization. It comes into use when the engine is hot.

ELECTION OFFICIALS AT COLUMBUS MEET

Marion County Board Members Attend Session Called by Brown.

Clerk Bud H. Lawson, Deputy Clerk C. G. Ritzler and Ray Anthony, Elmer Blazer, Harry Gast and Edward Bender, of the Marion county board of elections, were in Columbus today for the opening session this afternoon of a state election officials' conference called by Secretary of State Clarence G. Brown.

Brown called in all of the county election heads to explain to them in a two-day conference the details of the new election code.

On Friday night at 7:15 o'clock Brown will talk from Station WLW, Cincinnati, to 54,000 precinct officials including 459 from Marion county, with a half-hour summary of the more important changes in the code.

LEFFLER'S

AUTO CRASH CASE IN COURT TODAY

Jury Hears Testimony In Suit of Elsie Dodd Against Schoenlaub.

Testimony was being heard today in common pleas court in the $2,901 damage suit brought by Elsie Dodd against Elmer J. Schoenlaub.

The suit grew out of an automobile collision on March 22, 1927, in which the two figured.

Members of the jury hearing the case are John B. Gunder, Mrs. Harley W. Rodeck, Mrs. Gertie Bombarger, E. E. Drake, Ralph E. Grubaugh, Frank D. McKinnis, John Jenner, Mrs. Doxie M. Crawmer, Mrs. Blanche Barnhouse, Mrs. William Dallas, G. W. Hinamon and Bertha Bickel.

John Bartram is attorney for the plaintiff and George T. Geran is counsel for the defendant, assisted by the law firm of Wilson & Reeter of Columbus.

Three Seek Divorce

Three divorce actions have been started in common pleas court with the filing of petitions.

Marie George asks a divorce from Lowell T. George on grounds of gross neglect and extreme cruelty. They were married in Gallipolis on Feb. 17, 1910, and have five children. L. E. Myers is attorney for the plaintiff.

A similar charge of gross neglect and extreme cruelty is made by Lucile Walrons against Joseph Walrons, who were married Dec. 24, 1927. They have no children. The defendant, according to the petition, is serving a 30-day sentence in the Darton workhouse for assault on the plaintiff and her sister. Homer E. Johnson is the plaintiff's attorney.

Suit for divorce was filed by Abigail Graff against Gordon E. Graff. Gross neglect of duty and extreme cruelty are charged. The couple were married March 30, 1929, and have one child. The law firm of Ochs & Roller is counsel for the plaintiff.

Court Appointments

Charm N. Kline was appointed by probate court today as administrator of the estate of James D. Mitchell. Frank Lyon has been appointed by probate court as administrator of the estate of Harry L. Trussler.

MAN HELD IN JAIL

Charged With Shooting Revolver by Authorities.

Edward Shaffer, 21, of 1088 West Center st, is in city prison today facing a charge of discharging firearms inside the corporate limits of the city, what is alleged by police to have been a neighborhood quarrel which terminated yesterday in gunfire.

Dispute between Shaffer and a neighbor over the correct location of a property line was the source of trouble for several days, police said today.

ILL 16 YEARS KONJOLA SCORED QUICK VICTORY

"Konjola Proved to Me That It Is a Wonderful Medicine," Said Grateful Lady

MRS. J. F. POWELL.

"For 16 years I was a victim of a severe case of stomach trouble," said Mrs. J. F. Powell, 104 Gettysburg avenue, Dayton, Ohio. "It was so bad that at times I would spit up bits of undigested food and this would be followed by a burning sensation from my stomach to my throat. Biliousness and constipation added to my troubles. I had to take laxatives regularly. Besides all that, I had a stiff neck for several years and could not turn my head. I tried all kinds of medicine but got no results.

"But Konjola proved to me that it is a wonderful medicine. I got more relief from a few bottles of Konjola than from all other medicines I have taken combined. Why, I feel like a new person! Stomach trouble is a thing of the past and my appetite is fine. The stiffness has disappeared and I can again turn my head. I cannot praise this wonderful medicine too highly and gladly recommend it to all who suffer as I did, for I know it will give results."

Konjola is a medicine that, when given a fair trial—from six to eight bottles—really and harmlessly eliminates the common ills of the stomach, liver, kidneys and bowels, and rheumatism, sciatica and nervousness.

Konjola is sold in Marion, Ohio, at Kemp & Sons Pharmacy and by all the best druggists in all towns throughout this entire section.—Adv.

Sheriff Arrests Man on Liquor Charge

Arthur L. Litell, of Commercial av., was to be arraigned this afternoon before Probate Judge Oscar Gast following his arrest last night on a charge of illegal possession of intoxicating liquor.

Litell was picked up in an alleged intoxicated condition by Sheriff John J. Francis and Deputy Fred Williams last night on the Sawyer road. A gallon of whisky was found in Litell's Willys-Knight touring car, Francis said.

MARION PHYSICIAN AIDS IN MEET PLANS

Dr. Thomas Is Officer of Medical Group Which Holds Session in June.

Dr. F. L. Thomas, of Marion, treasurer of the Ohio State Eclectic medical association, is on the committee of arrangements planning the joint meeting of the Ohio and National Eclectic Medical association to be held in the Deshler-Wallick hotel, Columbus, June 17 to 20.

Several hundred physicians representing nearly every state in the union are expected to attend the meeting. In addition to Dr. Thomas, Drs. S. W. Mattox and C. G. Smith are expected to represent Marion.

The term "eclectic" denotes one of the three branches of medicine, the others being allopath and homeopath.

Weatherman Promises Thunderstorms Friday

Fair and warmer weather tonight, followed by cloudy weather and probable showers and thunderstorms Friday is predicted by official weather forecasters today.

STOMACH TROUBLE OF MANY YEARS ENDED

Highland Park Lady Says Mul-So-Lax Brought Her Prompt, Lasting Relief.

Mrs. Goldie Worley, of Highland Park, Mich., suffered with constipation, gastritis, gas and sour stomach for a long time. Finally her husband brought home a bottle of Mul-So-Lax and she began taking it. She says, "Usually I hate to take medicine, but Mul-So-Lax is really delightful to take, almost like ice cream. I noticed a great improvement in my health after the first bottle, and now after taking several bottles, I am entirely free from my ailments. I eat and enjoy my food, and sleep like I used to again. I am glad to tell others how it has helped me."

St. Mary's School Cafeteria Meets With Approval of Hungry Youngsters

New Venture Is Only One of Its Kind in Any Marion School.

PUPILS LIKE IDEA

Parent-Teacher Members Serve 10-Cent Meals to 150 at Noon.

THE responsibility of running homes doesn't prevent members of the St. Mary's parochial school Parent-Teachers' association from taking on other lines of activity.

Their new undertaking, however, is closely allied to homemaking. Nevertheless it is the only undertaking of its kind in the city.

The women of the Parent-Teachers association are running a cafeteria for pupils of the school. The members of the association not only plan the meals, but cook them. They purchase supplies and were largely instrumental in opening the cafeteria in the basement of St. Mary's school building.

In the short time that the cafeteria has been in operation the association has served lunch daily to an average of 150 pupils of the grade and high school. Ten days a week breakfast is also served to a large number of pupils.

Originator of Idea

The cafeteria idea was originated by the Rev. [illegible] pastor of St. Mary's church. It was his idea that the cafeteria at the school would [illegible] their homes at noon. Another favorable feature as he saw it was that the school lunch would remove the [illegible] by pupils [illegible] a distance from

Page 5

Pictured above are two scenes taken in the new cafeteria at St. Mary's parochial school. The upper picture shows a few of the approximately 150 pupils who take advantage of the cafeteria for their noonday lunch. The lower picture shows the pupils lining up at the serving counter for their trays.

Used, Endorsed and Sponsored by the

Parent--Teachers Association of St. Mary's School

Busy though this enthusiastic organization may be in their undertakings for the welfare of their school, they are not indifferent about the subject of complexions, and are taking this means of supporting their worthy enterprise, through a liberal percent of the proceeds of this event.

Pall Mall Savons exquisites--the new French Milled Soaps--when used leave the most tender skin soft and smooth as velvet. The makers of this soap have spared no expense in giving to women a quality product backed by years of research and experimentation.

IAMI TRACKSTERS FAVORITES TO WIN

ecords May Fall in Fifth Annual Conference Meet in Athens Saturday.

By The Associated Press

COLUMBUS, May 22—Twelve athletic champions of the Buckeye conference in their events, will enter the fifth annual conference track meet in Athens Saturday but only five or six are likely to retain their crowns.

The chance is expected to be equally good among the records of best performances in the meet which is bringing together the pride of Miami, Ohio Wesleyan, Denison, Ohio university and Cincinnati universities. Nearly half a dozen records should be broken, most of them by Miami men who figure to prove much too strong for the other schools in total points.

Only two 1929 winners reentered in their events except the hurdles, the only middle distance champions will retain their honors. Dearmond Davis of Denison in the 100-yard dash, Norman Lambacher of Ohio Wesleyan in the 220-yard dash, Jim Bausch of Miami in the quarter-mile run and his teammate Gerald Reed in the half-mile.

Crack Miler To Run

From that distance on, however, the champions will have serious trouble. Charles Stewart of Miami has turned in better time for the mile run than Alfred Morgan of Ohio university, the defending champion.

Charles Shugert of Miami, has bettered the two-mile record and should dethrone Waldo Dean of Ohio Wesleyan, the defending champion.

Dave Davis of Miami, a Youngstown boy, will probably retain his high jump championship but will probably lose his pole vault title to Gerald Cheadle of Miami.

Quido Fachini, the Alliance boy who throws the javelin for Ohio Wesleyan, must watch Rowland of Ohio or he may lose his title.

Records most likely to fall are in the quarter-mile, two-mile, short, discus, high and broad jumps. Gordon in the quarter, Davis in the high jump and Vessler in the shot should break their own records although Gordon will have to better 49.7 seconds to do it in his event.

SIX PRIZES WON

BUCYRUS, May 22—Three Bucyrus bowlers had the distinction of winning cash prizes in the bowling tournament held recently at Fremont, according to word received here today. The local bowlers who came in the money were Don Haines, Babe Bennett, Lawrence Schott. Six cash prizes were won by the three men.

Philosophy is not much account unless people will pay you for it.

Oh Boy! What Joy
LIFT CORNS RIGHT OUT

The English Way

Right from England comes the new, easier, joyful way to take out corns—lift 'em right out with fingers.

Callouses go also and you can rub off that hard skin on heels and toes with your hand—the magic treatment. Ask Bradley's Drug Store or any leading druggist for a package of Radox—put 2 tablespoonfuls in a gallon of hot water—do this for 3 or 4 nights in succession—then lift out the corns.

This joyful exhilarating foot bath is simply great—you'll enjoy every minute of it and your burning, sore, tired, aching feet will feel better than they have for years—ask for Radox and foot comfort will be yours.—Adv.

RADIO NEWS AND PROGRAMS

Herbert Songs Make Up RCA Music Program

A MUSIC hour under the direction of Nathaniel Shilkret, devoted entirely to the melodies of Victor Herbert, favorite American composer, will be broadcast through the WEAF network during the RCA Hour, Thursday night at 9 o'clock.

Vocal numbers will be interpreted by favorite radio artists including Gladys Rice and Lucy Marsh, sopranos; Wilfred Glenn bass; Lewis James, tenor, and the Victor Salon group. This is the third in a series of programs dedicated to American composers by Shilkret, a serious student of the music created by composers of the United States.

Among the selections to be heard are excerpts from Herbert's operettas "Princess Pat," "The Red Mill" and "Eileen"; a selection from his grand opera "Natoma", and such favorite songs as "I'm Falling in Love with Someone," "Kiss Me Again," "Italian Street Song," and others.

Although ranked among the American composers, Victor Herbert was born in Dublin, Ireland, and studied music in Germany.

A program of popular dance tunes will be played by B. A. Rolfe and his Lucky Strike Orchestra over the WJZ network Thursday night, at 7 o'clock.

Vaudeville Trio Co-Stars With Vallee Orchestra

SINGING close harmony specialties for which they are noted both here and abroad, the Keller sisters and Lynch, famous vaudevillians contrast their brand of singing with Rudy Vallee's crooning on the "Sunshine Hour" Thursday night from 7 until 8 o'clock over station WEAF and a coast-to-coast network of associated NBC stations.

Starting when the three, Taddy, Nun and Frank, were 4, 9 and 10 years old, respectively, these artists have been appearing in every branch of the entertainment field for the past 17 years.

Their first engagement was on the old Mississippi show-boat, "Goldenrod," from which Edna Ferber is said to have gotten her material for her famous novel.

Since then their careers have carried them upward through dramatic stock, vaudeville, musical comedy, night clubs and talking pictures. Some of the shows in which they have appeared are Earl Carroll's "Allez Oop" and Charles Dillingham's "Lucky."

SENATE SPEEDS UP IMPORTANT BILLS

Race Develops To Get Measures Before Legislators Before Adjournment.

By the Associated Press

WASHINGTON, May 22—A race is on in the senate between advocates of the rivers and harbors bill and of the London naval limitations agreement to get their propositions before the chamber ahead of the rapidly approaching hour of adjournment.

No time has been set for adjournment but with the tariff bill due to be disposed of next week, senate leaders agree it will be hard to keep the weary legislators at their tasks much longer. There is still talk of an adjournment by June 10.

President Hoover has put the weight of his influence behind the movement to dispose of the treaty before the adjournment of this session.

Senator Johnson, Republican, of California, who has severely criticized the London naval treaty, has proposed that it go over until next session.

Meanwhile, as chairman of the commerce committee, Senator Johnson has called day and night sessions in an effort to iron out the many conflicts in the committee over the rivers and harbors bill.

Closed Bank Ordered To Pay Money to State

By The Associated Press

WASHINGTON, C. H., May 22—Common Pleas Judge H. M. Rankin has ordered the Ohio State bank, closed last week by state banking authorities, to pay the state of Ohio $80,000 deposited by the state before the bank closed. Demand that the money be paid was made by State Treasurer H. Ross Ake.

Evard M. Ford, an employe of the Ohio State bank, today faced charges of embezzling $1,000. He is free under $500 bond, pending grand jury action.

WET-DRY FINISH WAR HERALDED

F. Scott McBride Says Prohibition Battle Will Be Settled for All Time.

By The Associated Press

WASHINGTON May 22—A final fight between those for and against prohibition was heralded before the senate lobby committee today by F Scott McBride

Questioned by Chairman Caraway the witness said it was probably a good thing for the issue to be settled by the vets

'I think it will have to be fought out and settled for all time by a contest of that kind he asserted

The discussion followed testimony that the league was attempting to raise a fund of $500 000 a year to make a campaign in favor of the eighteenth amendment similar to the one before prohibition was adopted

Pledges for Future

Records also had been introduced showing the organization had been pledged future contributions of $18 706 922

McBride said the Pennsylvania Republican primary results was the biggest body blow to the wets that has yet come

Asked if he was glad wets were running for the senate from New Jersey he said smilingly he was glad there were two wets and one dry

The witness said the league had indorsed Secretary Davis and Senator Grundy in the Pennsylvania primary

Caraway asked McBride if he knew what President Hoover's prohibition views were and was told Secretary Davis ought to know since he was a cabinet member

Asked if the league's campaign had not "dropped off since prohibition was adopted McBride said it had "never let up in its educational work"

Collection for 1928

Senator Blaine Wisconsin read from league records that pledges made in 1928 amounted to $3 117 198 He added that the cost of collection was $2 895 131 and that net proceeds were $1 193 044 He also read from the records that $221 912 was pledged in Illinois with net proceeds of $90 197

CONFEREES ATTEMPT COMPROMISE ON BILL

Power of President To Proclaim Emergency Tariff Measure Main Issue

By The Associated Press

WASHINGTON May 22—The senate and house tariff conferees today endeavored to reach a compromise agreement on the only major dispute of the Smoot Hawley bill remaining unsettled that involving the president's authority to proclaim emergency changes in the customs rates

With an eye to gaining Democratic support and thus facilitating senate passage the majority managers of the two houses were considering a plan under which the chief executive's power in this connection would be measurably curtailed Mr Hoover has indicated a willingness to surrender some of the authority given him by existing law

Under the present law the chief executive is empowered upon the recommendation of the tariff commission to increase or decrease rates within a limit of 50 per cent and upon a basis of equalizing production costs However the president may or may not carry out the commission's recommendations

The house bill would provide for similar emergency changes but their basis would be an equalization of competitive conditions.

The plan under consideration would remove all the president's discretionary power in proclaiming changes and make it mandatory that he take

CHICAGO DRIVE GETS RESULTS

Another "Bad Man" Nabbed as Officers Use "Who's Hoodlum" List.

By The Associated Press

CHICAGO May 22 — The law is putting crimps in the Whos Hoodlum list made public recently by the Chicago crime commission

Sixteen of the 28 public enemies have been arrested since the commission's first letter April 23, and nine are now awaiting trial The commission made this known yesterday in letters to law enforcement officers

Even as the letter was in the mails police arrested another 'public enemy' —Leo Mongoven known as the bodyguard of George (Hugs) Moran, who himself is one of those listed in the Whos Hoodlum The commission's letter said Mongoven was in Ohio but the police arrested him in the Madison Kedzie State bank

Two 45-calibre pistols were strapped beneath the coat of the man, whom the crime commission has described as one of the city's principal 'bad men' Police who made the arrest heard later that Bugs Moran also reported to have been in Ohio, was across the street at the time his aide was arrested

Police were told that Mongoven had been trying for several days to force officials of the Madison Kedzie State bank to buy from him $5 000 in bonds at face value, although the bonds were understood to be worth only half that sum at present Last Saturday, they said Mongoven threatened that somebody would be bumped off if he wasn't treated right

Following the report of this threat, police were sent to guard the bank When they arrested him yesterday he had on his person $3 472 in cash and $3 000 in bonds

The letter by the crime commission was in the nature of a report on the activities during the past month of the public enemies.

action to make effective such changes as are recommended by the commission

The conferees late yesterday agreed to abandon the export debenture plan which the senate coalition also wrote

DEPRECIATION

BOUGHT ME for
HIS DAUGHTER Ann,
HER NAME was,
AND, BELIEVE
ME, SHE was
SOME SWEET girl
BOY—THE times
WE USED to have—
DANCING—EATING—
SPEEDING—nothing
WRONG, I assure
YOU—BUT plenty
OF clean fun Well,
ONE DAY Dad
BECAME WRATHY —
BROUGHT ME down
TOWN to the
DEALER AND said
"SELL IT—get what
YOU CAN—but sell!"
SO HERE I am,
SHOPPERS, I know
THE ROADS and
THE ROPES—come
AND GET ME!

A car of standard make, barring qualifying circumstances, depreciates more in its first year than in either the second, third or fourth years

This abnormal depreciation occurs despite the fact that modern cars are built to operate satisfactorily for several years

So good automobiles are available at low prices.

A used car deal is transacted with the same sincerity by a dealer as a new car sale He accepts the trade-in at a fair appraisal figure He sells his used cars on low down payments and convenient terms He stands back of the car to be as represented with his business reputation

With the motoring season at hand, now is the time to buy or trade

But, first, turn to the Classified Section of The Star and read the used car advertisements of Marion dealers A wide selection appears each day.

"I am the principal agent of la Surete" Flique answered "Let us proceed with our clews. That black rose on the carpet there—"

Cradle of Dirk informed us "somebody traipsed it in here."

"We'll check on that, Samuels granted. "And then there's the phoenix."

"It is another of the little mysteries," Flique continued volubly "And the price ticket for 95 cents in the dead hand of monsieur—that is not another"

The little man beamed upon Samuels. "But we have our clews. Come I shall be your inward eye and you shall be the outward eye."

"Fair enough Samuels grinned "You might begin by telling us what brought you to San Lucas."

Flique chuckled "You have me there, my friends. I have been at the house three times during the past four months. It is an old story—25 years old I speak of the robbery of the Banque du Midi You do not remember that robbery And why should you? You have them every hour But in my France it is different We have our artists of the crime. Such were those little ones, Jules Lacote Ciceron Bec and le Balafre The Scarred One

Bec and le Balafre Samuels muttered "Those names sound familiar"

"Ah, you think of those desperate ones who escaped from l'Ile du Diable seven months ago. Those are the two. In June of 1904 those three robbed the Banque du Midi in Marseilles. A million francs was secured and a patron of the bank who attempted resistance was shot. That patron—a merchant of antiques like M Hunt—died the next day I shall tell you about him. Well those three got away I was then attached to the Marseilles police—and I was directed to secure their apprehension

Soon I received an information concerning two of those three—Ciceron Bec and le Balafre There was a combat but those rascals were overcome and we took them away But what of Jules Lacote" Messieurs I cannot tell you

"Well those casaille were sentenced to l'Ile du Diable where France sends her little ones to repent—25 years old But of Lacote and that million francs we hear nothing since. But what has all this to do with Anatole Flique in the home of M Paradis?"

Flique paused dramatically and the... "Messieurs, I am here because of that jade phoenix"

We could not have been more startled. Samuels shook his head

"Where does the phoenix come in?" he demanded tersely

Flique continued exuberantly confident again

"It is an astonishing thing That merchant of antiques recognized Jules Lacote who shot him Lacote, it seemed had been intrigued by a piece of art in that merchant's shop and had bought it You see? Must I tell monsieur what it was that Jules Lacote bought?"

"I guess you don't need to" Samuels muttered But it can't be the same phoenix"

We shall see and Flique shrugged. "But it is clear that this Lacote believed in the luck or he would not have spent a thousand francs on a trifle of jade"

"You have a description of this Jules Lacote?" Samuels asked

"Oh several and Flique chuckled "That he is tall and blond that he is dark and bookroasted and that he is fat and the color of blood Ah these descriptions M le Deputy! and Flique chuckled again "What are they? The merchant of antiques died raving that he had been shot by a man to whom he had sold a phoenix of jade—that was all Poor fellow!"

But while absorbed le Balafre and Bec" Samuels persisted. "You must have got something out of them"

Flique stared indulgently "Monsieur does not understand, Le Balafre and Ciceron Bec are not given the sentence of death Instead, they are to go to l'Ile du Diable until life is finished Perhaps they will escape And if they do their fingers will itch for what is left of those million francs, and they will burn like 10 suns for the throat of that Jules Lacote Messieurs! Flique's voice became a whisper "not for all the francs on earth would I be the keeper of le Balafre and Ciceron Bec now that they have escaped! And now if le Deputy do you perceive why those little ones did not describe to me that infamous Lacote"

I was glad I was not Jules Lacote. "You've been chasing jade phoenixes ever since?" Samuels wanted to know

I have seen many of them in my time Flique beamed

"What brought you here?"

Flique had been waiting for the question. He drew fourth a wallet and withdrew from it a sheet of paper which he presented to Samuels A clipping from the classified columns of a French newspaper was pasted to the sheet

"I can't read French" Samuels said irritably

"M l'Antiquaire will translate" Flique murmured

A typewritten legend indicated that the clipping had been cut from the Clairon du Matin a Marseilles news paper I read the legend and then the clipping

"TO WHOM IT MAY CONCERN

If you are looking for a jade phoenix that was bought in Marseilles 25 years ago you may find it in the home of Mr Dan Paradis San Lucas Island California

Flique beamed agreeably at us whilst we digested this information Samuels took the paper stared at it, folded it slowly and tucked into a vest pocket

"I'll keep this, if you don't mind" he said in a tone that had let no timbre

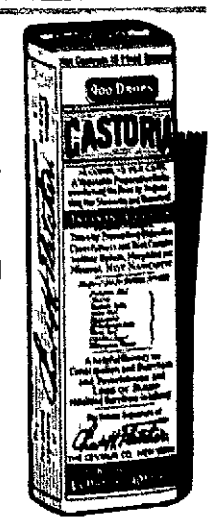
An Ailing CHILD



Are you prepared to render first aid and quick comfort the moment your youngster has an upset of any sort? Could you do the right thing—immediately—though the emergency came without warning—perhaps tonight? Castoria is a mother's standby at such times There is nothing like it in emergencies and nothing better for everyday use For a sudden attack of colic or the gentle relief of constipation to allay a feverish condition or to soothe a fretful baby that can't sleep This pure vegetable preparation is always ready to ease an ailing youngster It is just as harmless as the recipe on the wrapper reads. If you see Chas. H Fletcher's signature, it is genuine Castoria It is harmless to the smallest infant, doctors will tell you so

You can tell from the recipe on the wrapper how mild it is and how good for little systems But continue with Castoria until a child is grown.

Love's Reawakening

A Wife's Triumph Over Jealousy

BY ADELE GARRISON

The Pretty Picture of Youthful Attraction

I WAS not the only one who had seen that swift almost furtive glance at Ronald which Lillian gave after his mother's plea not to punish her by keeping Marion away from the party she had planned for the evening Both Harry Underwood and Helena Brixton were witnesses of that quiet look which for a tremulous instant seemed to bring into the laughter filled room a hint of something more serious almost sinister

That Lillian had no objection to Ronald's personality that indeed she would have liked him exceedingly if his eyes had followed admiringly any other girl than Marion I well knew But I also knew that contemplating his admiration for her idolized only child had brought her dangerously near to actual dislike of the manly young chap whose romantic devotion to Marion all the rest of us approved

"What's the Verdict"

I saw Helena Brixton's beautiful eyes cloud anxiously, while little etched lines appeared around Ronald's young mouth Harry Underwood's face was impenetrable but I sensed that he also was troubled although there was no hint of it in his voice as with a word of apology to Ronald he crossed to Lillian

"Well" wot says the high justice the middle and the low" he queried with a laugh as he looked down at her I warn you that I'm the prosecutor for the accused and I shall fight her case to the highest court

He was laughing as he spoke but I sensed something behind his mirth which I think reached Lillian's consciousness also I held my breath as I saw her strike one hand gently into the other a little mannerism of hers when she is fighting one of her own inclinations or decisions Would she yield to her husband's championship of her daughter would she remember the sacrifice of his own pride and jealousy he just had made for her or would she let her unreasoning fear for Marion have its way with her?

It seemed an eternity that I watched her but in reality it was but a second or two before Lillian smiled up at her husband

"Much ado about nothing" she quoted. "Have any of you heard me refuse to let Marion join the party tonight?

Her husband's eyes flashed approval at her Helent Brixton gave a relieved little laugh while Ronald's face ran the gamut from despondency to joy And from the doorway came a lilting query

Oh Mummy does that mean I may go

It was an exquisite picture of girlhood which the doorway framed Mary and Marion had made good use of the few minutes they had snatched and there was not a hair amiss in the waved girlish coiffure drawn softly down each side of her face and knotted simply at her neck nor a fold awry in her gown while her face in its coloring and texture made one think irresistibly of the time worn frayed but ever useful simile of a wild rose

I saw Ronald wince slightly as if her forthrightness had struck him an actual blow For an instant he stood still gazing at her then with an effort which I knew had cost him dear for he is excessively shy he crossed the room to her as if drawn by a magnet stretching out his hand to her before he had reached her

How do you do Le said and as he put her hand in his and answered her in like words and involuntarily the rest of us smiled It was as pretty a picture of youthful attraction as one would wish to see and I saw that even Lillian could not harden her heart to it

It was Marion who remembered first that there were witnesses to this pretty little reunion I think Ronald would have stood looking down at her upturned face and oblivious to anything else for the next half hour But Marion drew her hand away after a second or two and blushing fatuously made an appeal to her stepfather quite evidently as an escape from embarrassment

Dad you tell me Did she say I could go to the party?

Charles Owen Again

"I haven't heard the decision as counsel as yet Marion" he returned with twinkling eyes But I fancy judgment is about to be rendered"

Come here Marion" Lillian said softly and when her young daughter reached her side she slipped an arm about her waist and turned to Helena

Now let's hear about the party" she said comfortably Who where what when how many how long how much to eat?"

She was laughing as she finished and Helena Brixton joined in the laughter

You haven't lost your touch Lil she said but I'll answer your questions in order Who Marion Carolyn Ronald and his friend George Lancer chaperoned by myself and—Charles if he isn't called away to join Sam"

Your brother-in-law's going——" Lillian began, and I saw Marion glance up at her anxiously Was her mother going to refuse after all

Studebaker owners prefer Sohio 3¼ to 1

over any other gasoline!

RECENTLY, owners of Studebaker cars (all models), 3311 of them from all parts of Ohio were asked: "What gasoline do you use?" And again it was a landslide for Sohio Ethyl. The final count showed 648 votes for Sohio to 195 for the next most popular brand, 159 for the third, 149 for the fourth . . and the many others trailed far, far behind

This survey was conducted by the R L. Polk Company, an organization having no connection with any gasoline producer or distributor Here's the score:

Statewide Gasoline Survey — Studebaker Owners in Ohio

Number of Studebaker Owners Interviewed—3311 (all models) *Where Interviewed*—Cleveland, Columbus, Cincinnati, Dayton, Akron, Canton, Youngstown, Lima, Toledo, Portsmouth, Zanesville

GASOLINE USED	NO PREFERRING	PERCENT OF PREFERENCE	RATIO OF PREFERENCE FOR SOHIO
SOHIO	648	28.49	
2nd Best	195	8.57	3.32 to 1
3rd Best—Red Crown	159	6.99	4.07 to 1
4th Best	149	6.55	4.34 to 1
5th Best	111	4.88	5.83 to 1
6th Best	102	4.48	6.35 to 1
78 Other Brands—Each less than 4.01% of total designated.			

The above figures are taken from original records of a survey of Ohio motorists made by R. L. Polk & Company, which have been audited by me, and are certified as authentic

What's the Secret of Sohio's Popularity?

This poll of Studebaker owners seems to prove one thing conclusively: *Sohio Ethyl must do an outstanding job of powering that fine Studebaker engine.*

It does! Even without Ethyl, Sohio would be an outstanding motor fuel. *With* Ethyl it becomes the perfect anti-knock fuel for which modern motors are specifically designed.

Try it in your car. You'll get that thrill of super-performance which is making Sohio Ethyl the most widely used motor fuel, by far, in this State.

Fill up where you see the Red-White-and-Blue Sohio sign—anywhere in Ohio.

Jubilee's Pardner

A Story of Humorous Boyhood Adventure

BY JUDD MORTIMER LEWIS

BRIGHT and bammy, and when me and Jubilee woke up this morning which was Thursday I found one of us had kicked the cover off the bed or pulled it off with his teeth so I knew summer was already here and if vacation didn't come by the end of next week it would be late, because pretty soon there will be sweet corn and strawberry shortcake, and peach cobbler and the slippery slicks will be wet by the rain and cooled by the wind and soft from a soaking till a fella can slide down them without wearing out the part that he sades on.

I would hate to be a girl and not have the kinds of fun a boy has If I was a girl I would have more sense than to take a doll in my arms and set down in a little rocking chair and sing it to sleep and think I was having the time of my life. A girl isn't very brite. Not as brite a she looks. She couldn't be. When Tousies has on clean starched things on and new shoes and a little hat with the yella curls sticking out on each side of it, and she looks at me I can feel my heart or my stummick or my liver turning over inside of me like a pinwheel, but she has never slid naked down a slippery-slick, and she hasn't ever got a big snake with its neck between her big toe and the toe next to it and held it and let it wiggle till it got ready to drop a rock on it and break its back and she hasn't ever caught the end of a rope that was tied on a tree at the edge of the cliff and looken a long run and swung out over the lake and had the nerve to let go and then swim ashore and climb up the cliff and do it again

After I had done my work and fed my face this morning we went over to the vacant lot and Yoo-hooed Miss Turner, and went over to take a look at old man Scanlon who sets around now with a big blanket around him and looks all swunk up He looked at us a long time setting on his front fence like a flock of crows and then he kinda smiled and said "Hello" and we did too and I asted him if he wasn't well and he said he wasn't so very, and I told him he ought to go away somewhere, and he said he was going to do that very thing, and I asted him where, and he said he didn't know, so then we told him we hoped he would have a good time and went and got hold of our cows' tails and went to the pasture like their tails was kite-strings and we were kites. I told my father that Old Man Scanlon was going away and he said he knowed it. I asted him where he was going and he said that depended on how he had lived, and then he said to run out and play or go to hell. I done both. He has been [illegible] to us kids [illegible] a clever man [illegible]

NOW ON DISPLAY

THE NEWEST TREND IN FLOOR-COVERING PATTERNS:

All over town they're talking about our different "easy-shopping" floor-covering service. 50 or more "approved" patterns quickly inspected—like turning the leaves of a book. All over town, alert women are rebuilding the decorative themes of their rooms from the entrancing, modern linoleum and Floortex patterns we provide them, in this service.

And now, we announce the arrival of another group of patterns shown locally for the first time. With each pattern is a decorative scheme suggested by a well-known interior decorator. For instance—

FLORALEA Floortex Rug, No. 1067—has a distinctly colorful air. Its dainty blue field—over-run with flowers and contrasting green banded flower border—strike an effective note for a sunny bedroom.

MAYTIME Floortex Peach, No. 649—The fresh greens of spring with the rich colorings of early flowers are combined in this delightful pattern. They at once suggest a nursery or young girl's room.

MODERNIQUE Inlaid coral, No. 7018—A fascinating pattern of coral laced sea-greens interwoven by a web-like tracery of tiny bars. "Modernique" belongs in a sunroom or breakfast room.

LABYRINTH Floortex Cocoa, No. 659—A charming tile effect of cocoa-colored squares interplayed with blues—the whole brightened by touches of orange. Ideal for boy's room, kitchen or breakfast room.

How I coaxed him to eat

"ONCE I was worried. Mealtime was getting on my nerves. I prepared many appetizing dishes, but John simply would not eat—just 'minced' at his food. Perhaps sometimes a little grouchy. I began to fear he was 'slipping.' What was I to do? Love, home, happiness, business success—all depended upon an improvement in his condition. The blood-tonic idea suggested itself to me. My Druggist recommended S.S.S. He told me that S.S.S. was a great blood tonic; that it had been successful for over 100 years; that it was made from strictly fresh vegetable drugs and was beneficial to the most delicate system. Also that it would build up the blood and improve the processes by which the body is nourished. I brought home a large size bottle. John agreed to try it. Well, in just a few days I could see the difference. His improvement has been so rapid he is going to take several more bottles, and not only that, but he is now telling his friends to take S.S.S."

It is a known fact that when a man's system gets "run-down," he hasn't the resistance to ward off diseases. Loss of appetite is only a symptom. General weakness pervades the entire body. There is no desire to work or play. It is dangerous to let the red-blood-count remain below normal.

S.S.S. is daily helping people to regain their strength. Thousands of users have testified to its benefits in unsolicited letters of gratitude. It promotes a keen appetite, gives vitality to the body, clears the skin and wards off diseases. All Drug Stores sell S.S.S. in two sizes. Ask for the larger size. It is more economical.

S.S.S. Co.

Ten cure it to yourself to try S.S.S., its tonic effects will surprise you.

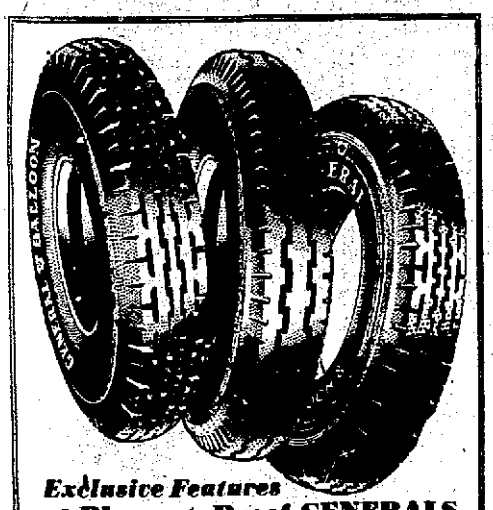
Makes You Feel Like Yourself Again

always the best Trade-in deal

because Your used tires are an ASSET to Our Business



Exclusive Features of Blowout-Proof GENERALS

Easier Riding: Lowest pressure of any tire, plus built-in rubber shock absorbers.

Extra Strength: Pure rubber only and more of it; greater toughness; extra layers of cords.

Longer Life: Extra layers of soft cushion rubber prevent internal wear from friction and absorb impacts that break other tires. The greatest mileage ever known.

Skid-Safe: Tougher, deeper tread—non-skid permanence. Extra softness and "give" inside means closer-clinging traction for life of the tire.

Blowout-Proof: The greatest safety advancement in modern motoring. Now, Safety at Any Speed.

If you are buying a new car ask about our special change-over plan—taking off the equipment tires and giving you the advantage of riding on Generals right from the start.

UNLIKE used cars to most automobile dealers, used tires are a real asset to our business. We never have too many. Through originating the tire trade-in plan and doing the biggest business for years, we have built up a big list of used tire customers who take the traded-in tires as fast as we get them.

This lets us start you off on Generals with a saving in first cost surpassed only by General's exclusive economy of performance.

Right Now A Double Saving

The rush-season is here. We need hundreds more used tires of every make and size and are ready to make you a special offer on your present tires regardless of age or condition.

With new tire prices at rock bottom and now the special trade-in allowance we can make, this is a wonderful opportunity to make the safety of Generals—the Blowout-Proof Tire—your safety, and at your price.

Miss Ula McNamara Is Composer of Class Song

Words and Music Will Be Sung for First Time in Public on June 5, When Harding High School Seniors Stage Annual Class Day Event.

CLASS DAY, Thursday, June 5 will be the occasion for the first public rendition of the Harding High school 1930 class song to which Miss Ula McNamara, South Vine st., wrote the words She wrote the words to the music of "The Old Refrain" and the song has been sung in school assemblies since the first of the year It was thought this year that more Ula McNamara time should be given the senior class to enjoy their song, and to accustom the entire student body with the words

Miss McNamara won the honor of having her words selected as the class song from a group of contestants including Bernita Le Masters Jean Zieg Martha McGee Harriett Martin, Dorothy Newby Jane Hart and Donna Riley

The words were submitted to a faculty and student committee made up of J H Evans director of music in the schools Miss Lucile Foreman Miss Ray C. McAfee Miss Edith Brown Dwight Hargar Ethel Brockman McDaniel Violet Doll and Ruth Downes

Words to the song are as follows

Verse I

Dear home of high school days
Our Harding High
The loss of 30 feels the
Friendly eye
In all that we may do or hold as dear
Our Alma Mater must be ever near
For all the happy days that
We have had
We give our thanks to you,
Sincere and glad
And though we're leaving soon
Of course no more
We'll all remember still that
Old Locker door

Verse II

Oh class of 31, now you may claim
The right to carry on her glorious name
Undimmed by any shame may her light shine
And guide us with a radiance ever fine
Oh Alma Mater Kind and ever dear
We say goodbye to you with failing tear
To all the friendships here
We'll ever be true
And always cherish them
With love anew

Chorus

So lift your voices all
And offer praise
Oh class of 30 we her standards raise
And we will cherish her as
Years go by
And never forget thee,
Dear old Harding High

Don't fool yourself

Since halitosis never announces itself to the victim, you simply cannot know when you have it.

Before any "date" end halitosis

Before any engagement where you wish to appear at your best, decency demands that you rinse the mouth with full strength Listerine, the safe antiseptic

By so doing you eliminate any risk of offending by halitosis (unpleasant breath) For Listerine overcomes bad breath instantly

You never have halitosis? Don't fool yourself—you simply cannot know when you have it It doesn't announce itself to the victim But it does to others and offends them

Being an active germicide capable of killing 200,000,000 germs in 15 seconds, full strength Listerine checks mouth fermentation and infection—both a cause of odors. Then it gets rid of the odors it is an instant deodorant

Miss Ula McNamara Is Composer of Class Song

Words and Music Will Be Sung for First Time in Public on June 5, When Harding High School Seniors Stage Annual Class Day Event

CLASS DAY, Thursday, June 5 will be the occasion for the first public rendition of the Harding High school 1930 class song to which Miss Ula McNamara South Vine st, wrote the words. She wrote the words to the music of The Old Refrain and the song has been sung in school assemblies since the first of the year It was thought this year that more Ula McNamara time should be given the senior class to enjoy their own, and to acquaint the entire student body with the words

Miss McNamara won the honor of having her words selected as the class song from a group of contestants including Bernita De Masters Jean Zieg Martha McGee Harriett Mar tin Dorothy Newby Jane Lee and Donna Riley

The words were submitted to a faculty and student committee made up of F H Evans director of music in the schools Miss Estelle Foreman Miss Ina C. McVee Miss Edith Swan Dwight Barzar Ethel Bray Alma McDaniel Violet Dillard Ethel Kramer

Words to the song are as follows

Verse I
Dear home of high school days
Our Harding, High
The best of all fields thy
Friendly eye
To all that we may do or hold as dear
Our Alma Mater must be ever near
For all the happy days that
We have had
We give our thanks to you
Sincere and glad
And though we're leaving soon
To come no more
We'll all remember still that
O Hello Door

Verse II
Oh class of 31 now you may claim
The right to carry on her glorious name
Undimmed by any shame may her light shine
And guide us with a radiance ever fine
Oh Alma Mater kind and ever dear
We say goodbye to you with falling tear
To all the friendships here
We'll ever be true
And always cherish thee
With love anew
Chorus
So lift your voices all
And offer praise
Oh class of 31 we her standards raise

High School Principal Suspends Star Golfers

By The Associated Press

CLEVELAND, May 22—Cleveland Heights High school's golf team, one of the favorites in the state high school tournament starting at Columbus tomorrow, was wrecked today with the suspension of three stars by Principal E. E. Morley "to preserve team spirit and discipline."

Morley announced that Charles Wallace, champion of Cleveland high school circles, John Jaeger and Rodney Upright had been ruled off the team, leaving only Grand Deming, Jr., of the regulars to play at Columbus. The principal said that the father of the Wallace youth had made reservations for the disciplined trio at the Columbus Country club without making provisions for Deming or Fred Hagaman, coach, and that the three youths failed to appear for classes yesterday.

PLAN $80,000 POLE

By The Associated Press

NEW YORK, May 22 — The Charles F. Murphy memorial committee's plans for an $80,000 flagpole in Union square, near Tammany hall, have been approved by the municipal art commission. There were protests when the memorial was proposed, but it is now announced the pole will not be a memorial to the late Tammany chieftain but will commemorate the 150th anniversary of the Declaration of Independence.

WINS ADDING-CONTEST

By The Associated Press

NEW YORK, May 22—Having listed and added 150 checks correctly in two minutes 8 2-5 seconds, R. A. Hartley, Jr., has won the annual adding machine contest of the New York chapter of the American Institute of Banking. His time was three seconds under his mark of last year.

OPPOSES DIAL PLAN

By the Associated Press

WASHINGTON, May 22—Senator Glass, of Virginia, regards dial phones as a nuisance and has introduced a resolution for their removal from the capitol. He says that since their installation senators have been required to perform the duties of telephone operators.

FORMER MAYOR DIES

By The Associated Press

MARTINS FERRY, May 22—Isaac Wycoff, 62, was dead today at his home here. He dropped dead last night from a heart attack. Wycoff, a printer for a Wheeling, W. Va., paper, was mayor of Martins Ferry from 1912 to 1916, the only socialist ever to hold that office.

Stone tablets containing items of news have been discovered during excavations at Ostia, near Rome. These would seem to be the first ancestors of our modern newspapers.

BABE KILLED IN FALL

By The Associated Press

CLEVELAND, May 22—Helen Moss, two-year daughter of Mr. and Mrs. Gilbert Moss, of near Elyria, died late yesterday after falling from the third floor window of the home here of her grandmother, Mrs. Augusta Moss.

If you listen to and encourage a gossip, you are particeps criminis.

Don't fool yourself

Since halitosis never announces itself to the victim, you simply cannot know when you have it.

Before any "date" end halitosis

Before any engagement where you wish to appear at your best, decency demands that you rinse the mouth with full strength Listerine, the safe antiseptic.

By so doing you eliminate any risk of offending by halitosis (unpleasant breath). For Listerine overcomes bad breath instantly.

You never have halitosis? Don't fool yourself—you simply cannot know when you have it. It doesn't announce itself to the victim. But it does to others and offends them.

Being an active germicide capable of killing 200,000,000 germs in 15 seconds, full strength Listerine checks mouth fermentation and infection—both a cause of odors. Then it gets rid of the odors: it is an instant deodorant.

Keep a bottle handy in home and office and use it. It makes you agreeable to others instead of disagreeable. Lambert Pharmacal Co., St. Louis, Mo., U. S. A.
